A multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 400 ppm (calculated as CaCO₃) in the presence of a moderate amount of soil (5% organic serum) according to the AOAC Use-Dilution Test. Disinfects, cleans, and deodorizes in one labor-saving step. Effective against the following pathogens:

- **Pseudomonas aeruginosa**
- **Staphylococcus aureus**
- **Salmonella enterica**
- **Acinetobacter calcoaceticus**
- **Bordetella bronchiseptica**
- **Chlamydia psittaci**
- **Enterobacter aerogenes**
- **Enterobacter cloacae**
- **Escherichia coli**
- **Fusobacterium nucleatum**
- **Klebsiella pneumoniae**
- **Listeria monocytogenes**
- **Pasteurella multocida**
- **Proteus mirabilis**
- **Proteus vulgaris**
- **Salmonella enteritidis**
- **Salmonella typhi**
- **Salmonella typhimurium**
- **Serratia marcescens**
- **Shigella flexneri**
- **Shigella sonnei**

**Program Number 6**

**Q-128**

ONE-STEP GERMICIDAL DETERGENT AND DEODORANT

KEEP OUT OF REACH OF CHILDREN

DANGER

Active Ingredients:
- Didexyl dimethyl ammonium chloride ........... 5.07%
- n-Alky (C₁₂ 50%, C₁₃ 40%, C₁₄ 10%)
- Dimethyl benzyl ammonium chloride ........... 3.38%
- Inert Ingredients:................. 91.55%
- Total ..................................... 100.00%

NET CONTENTS 1 GALLON (3.79L)
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and protective gloves (rubber or chemical resistant). Harmful if inhaled. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth. If possible, call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INGESTED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth. If possible, call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.Measure against circulatory shock, respiratory depression, and convulsion may be needed.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously, and dispose of rinsate consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or pourable and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsates. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state, and federal regulations.

Q-128 One-Step Germicidal Detergent and Deodorant
For use in hospitals, nursing homes, schools, colleges, universities, commercial and industrial institutions, office buildings, veterinary clinics, animal life science laboratories, task shops, pot shops, airports, kennels, hotels, motels, breeding establishments and grooming establishments. Disinfects, cleans and deodorizes the following hard nonporous inanimate surfaces: floors, walls, (non-medical) metal surfaces, (non-medical) stainless steel surfaces, glass porcelain, plastic surfaces (such as polypropylene, polyethylene, etc.). For use in federally inspected meat and poultry plants on all hard, nonporous surfaces in inedible product processing areas, non-processing areas, and/or exterior areas. All surfaces must be thoroughly rinsed with potable water.

Kills: Paramyxovirus 2009 H1N1 Influenza A Virus (formerly called swine flu).

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces.

PREGNANCY: SI NO PUDE LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DILUTION: 1:128 1 OUNCE PER GALLON OF WATER (660 ppm quat)

CLEANING/DISINFECTION/DEODORIZING DIRECTIONS: Remove heavy soil deposits from surface, then thoroughly wet surface with a solution of 1 oz. of the concentrate per gallon of water. The use-solution can be applied with a cloth, mop, sponge, or coarse spray or, on porcelain, can be used as a coarse spray in a spray bottle. Spray or coarse spray or, using a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or diluted.

TOILET BOWLS: Swab bowl with brush to remove heavy soil prior to cleaning or disinfecting. Clean by applying use-solution around the bowl and up under rim. Stubborn stains may require brushing. To disinfect, first preclean to remove heavy soil, then remove or exfoliate the inner liner tip the residual bowl water. Pour in 3 ounces of the use-solution. Swab the bowl completely using a scrub brush or mop, making sure to get under rim. Let stand for 10 minutes or overnight, then flush.

FUNGICIDAL DIRECTIONS: For use in areas such as locker rooms, dressing rooms, showers and bath areas and exercise facilities follow disinfection directions.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT CALL CHEMTRAC DAY OR NIGHT
800-424-9300

MILDEWSTATIC INSTRUCTIONS: Will effectively control the growth of mold and mildew plus the odors caused by them when applied to hard, nonporous surfaces such as walls, floors, and table tops. Apply use-solution of 1 ounce per gallon of water with a cloth, mop, sponge, or coarse spray. Make sure to wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

VETERINARY PRACTICE/ANIMAL CARE/ANIMAL LABORATORY/DOCS/PEG SHOP/KENNELS DISINFECTION DIRECTIONS for cleaning and disinfecting hard nonporous surfaces: equipment used for animal food or water, utensils, instruments, cages, kennels, stools, caters, etc. Remove all animals and feed from premises, animal transportation crates, crates, etc. Remove all litter, droppings and manure from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 1 oz. of this product per gallon of water (or equivalent dilution) for a period of 10 minutes. Wipe or allow to air dry. Ventilate buildings and other closed spaces. Thoroughly scrub all treated surfaces; that come into contact with food, including equipment used for feeding or watering, with soap or detergent and rinse with potable water before reuse. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

KILLS HIV-1 (AIDS VIRUS) and HBV (HEPATITIS B VIRUS) and HCV (HEPATITIS C VIRUS) ON PRECLEANED, ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the soiled surfaces/objects are likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type-1 (HIV-1) (associated with AIDS) or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) or HBV or HCV of SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Disposable protective gloves, gowns, face masks or eye coverings, as appropriate, must be worn during all cleaning of blood/body fluids and during decontamination procedures. Cleaning Procedures: Blood/body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. Contact Time: HIV-1 (AIDS virus) is inactivated after a contact time of 4 minutes at 25°C (77°F) (room temperature). HBV and HCV are inactivated after a 10 minute contact time. Use a 10-minute contact time for other viruses, fungi and bacteria.

Disposal of Infectious Materials: Blood/body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.
