KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Do not breathe vapor. Wash thoroughly after handling with soap and water and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. The following Personal Protective Equipment (PPE) should be used when handling the product: coveralls over long-sleeved shirt and long pants, socks and chemical-resistant footwear, goggles or face shield, chemical-resistant gloves (such as rubber or made out of any waterproof material), chemical-resistant apron. Wear a mask or PPE respirator jointly approved by Mine Safety and Health Administration and the National Institute for Occupational Safety and Health.

FOR COMMERCIAL USE
STRONG OXIDIZING AGENT

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by the poison control center or doctor. DO NOT give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or going for treatment.
FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-328-0026.
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL AND CHEMICAL HAZARDS
Strong oxidizing agent. Corrosive. Do not use in concentrated form. Mix only with water according to label instructions. Never bring concentrate in contact with other sanitizers, cleaners or organic substances.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to birds, fish, and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Sanitizing Non-Food Contact Surfaces: Prior to sanitizing, remove gross food particles, and then wash with a detergent solution, followed by a potable water rinse. Sanitize non-food contact surfaces such as floors, walls, tables, chairs, benches, drains, troughs, and drip pans with 1 oz. Oxy-Sept 333 per 6 gallons water. At this concentration the product is effective against Staphylococcus aureus, Enterobacter aerogenes, Escherichia coli, Listeria monocytogenes, Salmonella typhimurium, and Saccharomyces cerevisae. Also effective against organisms found in the breeding industry, Pedicoccus dammosus and Lactobacillus malefermentans. All surfaces should be exposed to the sanitizing solution for a period of not less than 5 minutes. Drain thoroughly and allow to air dry. No rinse necessary.

Foam Sanitizing Non-Food Contact Surfaces: Oxy-Sept 333 is an effective foam sanitizer of precleaned non-food contact surfaces, such as boots, floors, walls, drains, and associated equipment. For this application, prepare a solution of 0.2% v/v (1 oz. per 4 gallons water) Oxy-Sept 333 and 0.13% v/v (0.7 oz. per 4 gallons water) Liquid K. For example, in four gallons of water, add 1 fluid ounce of Oxy-Sept 333 and 0.7 ounces of Liquid K. Liquid K is the only approved foam generator. Apply solution as a foam using recommended equipment such as a Super Foamer. Wet surfaces thoroughly. At this concentration, the product is effective against Staphylococcus aureus, Enterobacter aerogenes, and Listeria monocytogenes. Surfaces should be exposed to the sanitizing foam for a period of not less than 5 minutes. No rinse is necessary. Contact your Ecolab representative for information on Liquid K and a recommended foamer.

DISINFECTION:
Oxy-Sept 333 disinfects as it cleans in one operation. Oxy-Sept 333 can be used to disinfect floors, walls and other hard nonporous surfaces such as tables, chairs, countertops, bathroom fixtures, sinks, shelves, racks, carts, refrigerators, coolers, tile, linoleum, vinyl, glazed porcelain, plastic (such as polypropylene and polyethylene), stainless steel, or glass.

Combination General Disinfection and Cleaning: Oxy-Sept 333 is effective against Staphylococcus aureus, Salmonella choleraesuis, Salmonella enteritis, Salmonella typhimurium, Proteus vulgaris, Streptococcus pyogenes, and Histoplasma capsulatum* at 0.4% to 1.0% (2 oz./4 gallons to 5 oz./4 gallons of water) in hard water (500 ppm as CaCO3), 5% blood serum and dried soap film residue on hard nonporous surfaces. For heavily soiled areas, a precleaning step is required. Prepare a disinfecting and cleaning solution diluting 4 oz. Oxy-Sept 333 in 8 gallons of water (0.4% v/v). Apply solution with mop, cloth, sponge, brush, scrubber, or coarse spray device or by soaking so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove solution and entrapped soil with a clean wet mop, cloth, or wet vacuum pickup. Prepare a fresh solution daily or when it becomes soiled or diluted. *Not tested in the presence of soap film residue.

Virucidal: At 0.4% to 1.0% (2 oz./4 gallons to 5 oz./4 gallons of water) Oxy-Sept 333 is effective against Influenza B/Tilawak/2/62, Influenza A (H3N2) and Influenza A (H1N1) when used at 20 deg C with a 10 minute contact time in the presence of 500 ppm hard water and organic soil. Apply as directed under disinfection. Oxy-Sept 333 is designed for use in animal hospitals, animal laboratories, kennel, pet shops, zoos, pet animal quarters, poultry premises, poultry hatcheries, and livestock quarters. When used as directed, Oxy-Sept 333 is specifically designed to disinfect deodorize and clean inanimate, hard surfaces such as walls, floors, sink tops, furniture, kitchen runs, cages and feeding and watering equipment. In addition Oxy-Sept 333 will deodorize those areas which are generally hard to keep fresh smelling such as garbage storage areas, empty garbage bins and cans, and any other areas which are prone to odors caused by microorganisms. All treated equipment that will contact feed or drinking water must be rinsed with potable water before reuse. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

Disinfection of Poultry Premises, Trucks, Coops and Crates:
1. Remove all poultry and feeds from premises, trucks, coops and crates.
2. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry.
3. Empty all troughs, racks and other feeding and watering appliances.
4. Thoroughly clean all surfaces with a detergent and rinse with water.
5. Saturate surfaces with a 0.4% to 1.0% (2 oz./4 gallons to 5 oz./4 gallons of water) solution of Oxy-Sept 333 for a period of 10 minutes.
6. Ventilate buildings, coops and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set or dried.
7. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains and waterers with a detergent and rinse with potable water before reuse.

See your Ecolab Representative for specific recommendations for all cleaning and rinsing requirements.

Poultry Hatchery Disinfection: Clean out any remaining eggs and chicks. Remove gross soils, such as litter, down, shell fragments or other hatchling related debris. Empty all racks and other equipment. Thoroughly wash all surfaces, including floors, walls, conveyors, trays and water systems with a recommended detergent. Rinse thoroughly with water. Apply a 0.4% to 1.0% (2 fluid ounces/4 gallons to 5 fluid ounces/4 gallons of water) solution of Oxy-Sept 333 with a mop, cloth, brush or coarse spray. Wet all surfaces and allow to remain wet for 10 minutes. Ventilate buildings and other closed spaces. Allow to dry before reintroducing eggs.

Disinfection and Deodorizing of Animal Housing Facilities (Barns, Kennels, Hatches): Remove animals and feed from facilities. Remove litter, waste matter and gross soils. Empty all troughs, rack and other feeding and watering equipment. Wash surfaces with a recommended alkaline detergent. by manual, foam, or spray application. Rinse with water. Apply a 0.4% to 1.0% (2 oz./4 gallons to 5 oz./4 gallons of water) solution of Oxy-Sept 333 with a mop, cloth, brush or coarse spray. Wet all surfaces and allow to remain wet for 10 minutes. Ventilate buildings and other closed spaces. Allow to dry before reintroducing animals.

Virucidal Activity - Poultry and Livestock Pathogens: Oxy-Sept 333 is useful as a disinfectant against viruses pathogenic to poultry: Influenza A (H1N7), Newcastle Disease virus, Infectious bronchitis virus. Revirus, as well as bovine and other livestock pathogens: Infectious bovine rhinotracheitis (IBR), Para influenza 3 Virus, and the foot & mouth disease virus (Apthoivirus).

For Sanitizing of Hatching Eggs: Prepare a solution of Oxy-Sept 333 by diluting 2 oz. product with 5 gallons of water. As eggs are gathered or prior to setting, apply solution as a coarse spray so as to lightly wet all shell surfaces.

NOTE: This product in its use solutions is compatible with stainless steel and aluminum surfaces. If product is intended to be used on any other surface, it is recommended that you apply product to a smaller test area to determine compatibility before proceeding with its use.

STORAGE & DISPOSAL
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

PESTICIDE STORAGE: Product should be kept cool and in a ventilated container to avoid any explosion hazard.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.
