PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE, CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. MAY BE FATAL IF ABSORBED THROUGH THE SKIN. HARMFUL IF INHALED OR SWALLOWED. This product may cause skin sensitization reactions in some people. Do not get in eyes, on skin or on clothing. Makers, loaders, applicators and all other handlers must wear coveralls over long-sleeved shirt and long pants; socks and chemical resistant footwear; goggles or face shield; chemical-resistant gloves made of any waterproof material; and a chemical resistant apron when mixing and loading. Discard clothing or other materials that have been drenched or heavily contaminated with this product. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separate from other laundry. If clothing gets inside the body, wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of clothes before removing. As soon as possible, wash thoroughly.

ENVIRONMENTAL HAZARDS

This chemical is toxic to terrestrial and aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your state Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label. Do not apply this product in a way that will contact workers or other persons.

RECOMMENDED USES

FIELD WATER FLOWERS:

X-CIDE 207 Industrial Microbiocide is used for the control of slime forming bacteria and sulfate reducing bacteria in oilfield waters. Treatment: Slug treat with 15-75 ppm X-CIDE 207 Industrial Microbiocide depending on the severity of contamination. X-CIDE 207 Industrial Microbiocide can be used in stagnant areas such as storage tanks, pumps and pipelines. X-CIDE 207 Industrial (8.2 - 17.6 pounds X-CIDE 207 Industrial Microbiocide per 1000 barrels of water) at a point in the system where it will be uniformly mixed. Repeat treatment after three days or as needed until control is achieved.

DRILLING MUDS AND WORKOVER OR COMPLETION FLUIDS:

X-CIDE 207 Industrial Microbiocide is effective in controlling fungi and bacteria in guar gum based fracturing fluid systems. Treatment: X-CIDE 207 Industrial Microbiocide should be added at 25-500 ppm through the mud hopper or at the pump suction. A typical 50 ppm treatment is 1.75 pounds per 100 barrels into the drilling mud circulating system.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Open dumping is prohibited. Store only in original container. Do not reuse empty container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Enforcement Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

KEEP OUT OF REACH OF CHILDREN

DANGER

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

Note to Physician

Probable mucosal damage may contaminate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.
