CONTRAC®
RODENTICIDE

BULK PELLETS

KILLS RATS & MICE
Kills Warfarin Resistant Norway Rats

NORWAY RATS

This product must not be applied directly to food or feed crops. This product may only be applied to active burrows to control Norway rats, and roof rats within 100 feet of buildings and man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations provided that infestations of these rodents have been confirmed. Efforts should be made to remove food trash, garbage, clutter and debris. Bait must be placed no less than 6 inches into active Norway rat burrows. Do not broadcast bait.

APPLICATION DIRECTIONS:

1. Store unused product out of reach of children and pets. Do not sell this product in individual containers holding less than 16 pounds of bait.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations provided that infestations of these rodents have been confirmed. Efforts should be made to remove food trash, garbage, clutter and debris. Bait must be placed no less than 6 inches into active Norway rat burrows. Do not broadcast bait.

SELECTION OF TREATMENT AREAS:

Determine areas where rats or mice will most likely find and consume the bait. Generally, these areas are along walls, by screened openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rats or mice or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

Application of buildings and man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations provided that infestations of these rodents have been confirmed. Efforts should be made to remove food trash, garbage, clutter and debris. Bait must be placed no less than 6 inches into active Norway rat burrows. Do not broadcast bait.

FOLLOW-UP:

Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease.

CONTAINMENT/DECONTAMINATION:

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used to prevent inadvertent intentional and/ or unintentional ingestion of bait by children, pets, domestic animals and nontarget animals. Remove as much alternative food as possible.

CAUTION:

Harmful if swallowed. Harmful if inhaled. Avoid breathing dust. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION:

Harmful if swallowed. Harmful if inhaled. Avoid breathing dust. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse. All handlers (including applicators) must wear: shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements

Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or create.
