KILLS RATS, MICE, AND MEADOW VOLES*

**Kills Warfarin Resistant Norway Rats**

**ACTIVE INGREDIENT:**
Bromadiolone (CAS #: 28772-56-7): 0.005%

**OTHER INGREDIENTS:†** 99.995%

†Contains Denatonium Benzoate

**NET WT:**
1 lb (0.45 kg)

**INDIVIDUAL SALE IS PROHIBITED BY LAW**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**
See back panels for First Aid and additional precautionary statements.

*Not permitted for use against the following species in California:
Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat,
Meadow vole, White-throated woodrat, Southern plains woodrat,
and Mexican woodrat

12455-79 Contrac All-Weather Blox™

CITY PACK™

Bell LABORATORIES, INC.
Kills Warfarin Resistant Norway Rats

Norway rats, roof rats, and house mice may consume a lethal dose in one or two nights’ feeding with first dead rodents appearing four or five days after feeding begins.

**ACTIVE INGREDIENT:**
Bronobromide (CAS 48377-56-7): 0.0005%
Other Ingredients: 99.995%

**CONTAINS DERATIDINUM BENZOATE 10%W 100000PPM**

**KEEP OUT OF REACH OF CHILDREN CAUTION**

See side panels for First Aid and additional precautionary statements.

**ENVIROMENTAL HAZARDS**

This product is extremely toxic to fish, birds, and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they fed upon animals that had eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or residue.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**Refrigerator Storage:** Store blox in a cool, dry place for prolonged periods. Store blox in their original container to retain potency. Do not store in an outdoor location for more than 30 days.

**STORAGE AND DISPOSAL**

No special storage or handling is required. Store out of reach of children.

**INTERIORS**

Determine areas where rats, mice, or meadow voles will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rats, mice or meadow voles are known to be present.

**Annual Network of Rat Traps**

This product is a network of rat traps designed to be used in the field for the purpose of controlling rat populations. The network consists of traps placed in strategic locations throughout the target area, allowing for the detection and monitoring of rat activity. Regular monitoring and maintenance of the network are essential for effective rat control.

**BAIT STATIONS**

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used whenever children, pets, non-target mammals, or birds may have access to the bait placement location.

**USE RESTRICTIONS**

This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypii), Cotton rat (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse (Reithrodonotomys humulis), Golden mouse (Colobeomys rutilus), Polydesmum rat (Rattus exulans), Meadow vole (Microtus pennsylvanicus), White-footed mouse (Peromyscus leucopus), White-throated woodrat (Neotoma albicollis), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma mexicana).

**USE RESTRICTIONS:**

This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypii), Cotton rat (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse (Reithrodonotomys humulis), Golden mouse (Colobeomys rutilus), Polydesmum rat (Rattus exulans), Meadow vole (Microtus pennsylvanicus), White-footed mouse (Peromyscus leucopus), White-throated woodrat (Neotoma albicollis), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma mexicana).

**USE RESTRICTIONS:**

This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypii), Cotton rat (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse (Reithrodonotomys humulis), Golden mouse (Colobeomys rutilus), Polydesmum rat (Rattus exulans), Meadow vole (Microtus pennsylvanicus), White-footed mouse (Peromyscus leucopus), White-throated woodrat (Neotoma albicollis), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma mexicana).
FIRST AID

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:
• Call a poison control center, doctor, or 1-877-854-2494, or 1-800-856-7378* immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15–20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

** Also call this number for information on health concerns and pesticide incidents.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN
If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally. Repeat as necessary on monitoring of prothrombin times.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent exposure:
1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age. Be alert to the danger of introducing children of all ages to such products, even after they are no longer present.
3. Dispose of product container and unused, spilt, or unconsumed bait as specified on this label.

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, non-target mammals, or birds may have access to the bait placement location.

USE RESTRICTIONS: This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypiinus), Cotton rat (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse* (Rapheuthodontomyia humilis), Golden mouse* (Ochrotomys nutlax), Polynesian rat* (Rattus exulans), Meadow vole* (Microtus pennsylvanicus), White-footed mouse* (Peromyscus leucopus), White-throated woodrat* (Neotoma albigula), Southern plains woodrat* (Neotoma micropus), and Mexican woodrat* (Neotoma mexicana).

This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles (ships, trains, aircraft), docks and port or terminal buildings and related structures around and associated with these sites. Fence or perimeter baiting, beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

Burreo baiting with Contrac All-Weather Blox is prohibited.

Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not broadcast bait. Do not use this product in sewers.

CAUTION:

This product is extremely toxic to fish, birds and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinse.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. [Plastic] Offer for recycling or reconditioning; or puncture and dispose of it in a sanitary landfill, or by incineration. In most states, burning is not allowed. [Paper] Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration. In most states, burning is not allowed.

NOTE TO VETERINARIAN
Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

CAUTION: Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing.

User Safety Requirements
Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling the product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish, birds and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinse.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.
