This product is designed to be used in and around homes, businesses, and other buildings to control rodents and/or birds. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**KILLS RATS & MICE**

**ACTIVE INGREDIENT:** Bromadiolone (CAS 28772-56-7) 0.005%

**OTHER INGREDIENTS:** Denatonium Benzoate 99.995%

**TOTAL 100.000%**

**Net Weight:**

- **8 lbs (3.6 kg)**
- **86 x 1.5 oz (43g) Pacs**

**PLACED PACS**

- **Kills Warfarin Resistant Norwegian Rats**
- **Ready-To-Use**
- **Pelleted Bait**
- **With Bromadiolone**

**PRECAUTIONARY STATEMENTS**

**Hazard To Humans And Domestic Animals**

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or clothing. All handlers (including applicators) must wear eye protection and impervious gloves. Any person who enters an area where this product has been used must wash thoroughly with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs, cats and other predaceous and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This product must not be applied directly to water or to areas where surface or ground water may be present or to tributary areas below the mean high water mark. bitcoin may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment waste water or residues.

**TREATMENT FOR POISONING**

- **If swallowed or absorbed through the skin:** This material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally.
- **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor, or 1-877-854-2494 immediately for treatment advice.
- **If ingested:** Get medical treatment immediately for treatment advice.

**STORAGE AND DISPOSAL**

- This product must be stored out of reach of children and pets. To help prevent exposure:
  - Store this product in its original container in a well-ventilated, cool, dry, and secure area inaccessible to children and pets.
  - Do not apply this product to water or areas where surface water may be present.
  - Do not apply this product directly to water or to areas where surface or ground water may be present or to tributary areas below the mean high water mark. It may be hazardous to aquatic organisms in water adjacent to treated areas.

**WARNING:** Do not contaminate water, food or feed by storage or disposal. Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent exposure:

**DIRECTIONS FOR USE**

**Notes to VETERINARIAN**

- Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or milk handling equipment or surfaces that come into direct contact with food. Do not contaminate food. Do not broadcast treat.

**FIRST AID**

- **IF SWALLOWED:** Rinse mouth and provide a large amount of water.
- **IF IN EYES:** Rinse eyes with water for 15-20 minutes. Hold eye open and rinse slowly and gently with water for 15-20 minutes. If needed, check prothrombin for treatment advice.
- **REPEAT AS NEEDED:** Repeat as necessary based on monitoring of prothrombin times.

**NOTE TO PHYSICIAN**

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally.

- **NOTE TO VETERINARIAN**

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally.

- **NOTE TO PHYSICIAN**

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION:** Do not contaminate water, food or feed by storage or disposal.
