MOTOMCO FARM & RANCH

Kills Warfarin Resistant Norway Rats
All-Weather Formula
Can Be Used Indoors or Out
With Bromadiolone

KILLS RATS, MICE & MEADOW VOLES

ACTIVE INGREDIENT:
Bromadiolone (CAS #28772-56-7): 0.005%
OTHER INGREDIENTS*: 99.995%
*Contains Denatonium Benzoate

Net Weight: 9 lbs (4.1 kg)

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panels for First Aid and additional precautionary statements.
FIRST AID

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:
• Call a poison control center, doctor, or 1-877-854-2494, or 1-800-868-7378* immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes.
• Call a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.
• Also call this number for information on health concerns and pesticide incidents.

NOTE TO PHYSICIAN
If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₃ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN
Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₃. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:
1. Store unused product out of reach of children and pets.
2. Store unused product out of reach of children and pets.
3. Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:
(Continued from other panel)
2. Store unused product out of reach of children and pets.

APPLICATION DIRECTIONS:
RATS: Place 3 to 16 bait blocks (at intervals of 15 to 30 ft) per placement in infested areas.

CAUTION:
Keep containers closed and away from other chemicals.

USE RESTRICTIONS:
This product may only be used to control the following rodent pests in and around agricultural buildings and man-made agricultural structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypinus), Cotton rats (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Ochrotomys nutalli), Polynesian rat (Rattus exulans), Meadow vole (Microtus

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish, birds and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or runoff.

Pennsylvania), and White-footed mice (Peromyscus leucopus). This product must be used in and within 100 feet of agricultural buildings and man-made agricultural structures. Constructed in a manner so as to be vulnerable to commensal rodent invasions and/or harboring or attracting rodent infestations. Fence and perimeter baiting, beyond 100 feet from an agricultural structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

Burrow baiting with HAWK All-Weather Bait Chunx is prohibited.

Do not use in homes or human residences. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. Do not broadcast bait. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Do not sell this product in individual containers holding less than 8 pounds of bait.

SELECTIVE USE OFTREATMENT AREAS: Determine areas where rats, mice, or meadow voles will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rats, mice, or meadow voles, or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:
RATS: Place 3 to 16 bait blocks (at intervals of 15 to 30 ft) per placement in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.

MICE AND MEADOW VOLES: Place 1 block per placement. Space placements at 8- to 12-foot intervals in infested areas. Two blocks may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow mole activity cease.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing.

All handlers (including applications) must wear shoes plus socks, and waterproof gloves. Anyone who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements
Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. [Plastic: Offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or by incineration. In most states, burning is not allowed.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and/or handling is contrary to label instructions.

Net Weight: 9 lbs (4.1 kg)

This product is available exclusively from Motomco, 3699 Kinsman Blvd., Madison, WI 53704 U.S.A.

The World Leader in Rodent Control Technology®
sites, pests, and application methods described on this label. READ THIS LABEL: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used. Note:

3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

DIRECTIONS FOR USE: This product is extremely toxic to fish, birds and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water bodies. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment with bait waters or rinseates.

This product may only be used to control the following rodent pests in and around agricultural buildings and man-made agricultural structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Peromyscus gossypinus), Cotton mouse (Rattus rattus), Cotton rats (Ochrotomys nuttalli), Meadow vole (Peromyscus maniculatus), Eastern harvest mouse (Reithrodontomys pensylvanicus), Deer mouse (Peromyscus leucopus), and White-footed mouse (Peromyscus leucopus).

Important:

Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent exposure:

1. Store unused product out of reach of children and pets.

2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in areas prone to vandalism.

3. If bait can be shaken from bait stations when they are lifted, tamper-resistant bait stations are needed in areas open to animals and pets.

All handlers (including applicators) must wear shoes plus socks, and waterproof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves. Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing.

CAUTION:

Do not sell this product in individual containers holding less than 8 pounds of bait.

Do not use in homes or human residences. Do not place near or inside ventilation duct openings. Do not use in or on food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

Failure to follow these guidelines may result in control failure and increase the risk of rodent resistance. Prudent management practices such as the destruction of food, water, and harborage as much as possible, can reduce the risk of resistance to rodenticides.

FOLLOW-UP: Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed. A continuous source of infestation is present where there is an unlimited food supply, continuous access to shelter, and accessible food."
