CONTAINS 4 - 1 lb RODENT BLOCKS

Peanut Flavored
Mold & Moisture Resistant
Can Be Used Indoors or Out
With Diphacinone

MADE IN USA

Do not sell this product in individual containers holding less than 4 pounds of bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats, mice or meadow vole* will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: Each TONCAT All-Weather Rodent Block consists of a one-pound slab scored to be broken into sixteen-1 oz. pieces.

RATS: Break and apply 4 to 16 pieces of bait (usually at intervals of 15 to 30 feet) per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rod activity cease.

MICE AND MEADOW VOLES*: Use one-1 oz. piece per bait placement. Space placements at 4 to 12 feet intervals. Two-1 oz. pieces may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of mouse or meadow vole* activity cease.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Leaving globes, collect and dispose of all dead, exposed animals and leftover bait. To prevent reinfection, fertilize sources of rodent food, water and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

PRECAUTIONARY STATEMENTS:

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing. All handlers (including applications) must wear long-sleeve shirt, long pants, shoes plus socks, and gloves. Any person who receives cuts or an unbroken skin following application of this product must wash waterproof gloves.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and warm water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, showing, grooming, using tobacco or using the toilet and changing into clean clothing.

Environmental Hazards

This product is toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed in trash or delivered to an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Dispose of empty container by incineration or by placing in trash, at an approved waste disposal facility or by incineration.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and handling of this material when such use and/or handling is contrary to label instructions.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-footed woodrat, Southern plains woodrat, and Mexican woodrat.
