For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide management. Protected handlers may be in the area during application. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard. Engineering controls statements:

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and warm water. Wash and wash equipment in a sink or basin that does not come in contact with food or food equipment. Do not use solvents. Continue to use or assemble the equipment only if it is clean and safe. If a product requires more than one type of PPE, follow the requirements for the most protective type of PPE.

For greenhouse use the ecological interval (EI) is 24 hours. For non-greenhouse use the application of copper-containing products in greenhouse is:

- that residues in the treated area may be highly irritating to their eyes,
- the requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard (WPS).

Applicators must follow all state and local pesticide drift requirements regarding application of copper compounds. The boom length must not exceed 75% of the wingspan or 90% of the rotor blade diameter. Temperature Inversions

Do not apply with a nozzle height greater than 4 feet above the crop canopy.

Applicators must follow all state and local pesticide drift requirements regarding application of copper compounds. For any nozzle height greater than 4 feet above the crop canopy, do not apply this product through any type of irrigation system. The displacement of drift will not be compensated for this displacement at the up and downwind edge of the application area by adjusting the path of the application equipment.

FIRST AID

Keep out of reach of children. Do not apply this product in a way that will contact children, adults, or pets, either directly or through drift.

SPRAY EQUIPMENT MANAGEMENT

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Application Restriction

Apply only in a medium to coarse sprayer. (0.25 to 0.60 gals of water per pound of copper oxide)

Temperature Inversion

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

The application of this product may be reduced or modified as specified in the Worker Protection Standard. Temperature Inversion

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Retreatment

Do not apply this product in a way that will contact children, adults, or pets, either directly or through drift.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.

Do not apply at wind speeds greater than 10 miles per hour. Only properly trained and certified applicators may apply this product. The application of this product may be reduced or modified as specified in the Worker Protection Standard.
Be sure to read and follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop or other plant injury, ineffectiveness, or other unintended consequences may occur.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

BEFORE BUYING OR USING THIS PRODUCT

3 Minimum number of days between each application.

* Not for use in California

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

PERSISTENT STORAGE: Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, fold and roll back bags, clamp and close.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC - 1-800-424-9300.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Offer for recycling if available.

PESTICIDE DISPOSAL:

To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Consult your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONDITIONS OF SALE AND LIMITATION OF LIABILITY

 warranties, or oral representations, all of which are hereby disclaimed. All warranties, whether expressed or implied, including but not limited to the warranty of merchantability or fitness for a particular purpose, are hereby disclaimed. The sole and entire liability of LOVELAND PRODUCTS, INC. and the seller shall be the buyer's or user's exclusive remedy for any injury, loss, or damage resulting from the handling or use of this product, including but not limited to the infinity of terms and conditions of warranty and liability. LOVELAND PRODUCTS, INC. and the seller shall not be liable to the buyer or user of this product for any consequential, special, or indirect damages, or damages in the nature of a penalty. TO THE EXTENT ALLOWED BY APPLICABLE LAW, THE BUYER'S OR USER'S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO THE INJURY, LOSS, OR DAMAGE Resulting FROM THE USE OF THIS PRODUCT.
