ONE-STEP DISINFECTANT GERMICIDAL DETERGENT AND DEODORANT

Disinfectant • Pseudomonas aerobic • Staphylococcus aureus • Escherichia coli • MRSA (Methicillin-Resistant Staphylococcus aureus) • Pseudomonas aeruginosa • Salmonella enterica • Aspergillus fumigatus • Chlamydia psittaci • Community Associated Methicillin-Resistant Staphylococcus aureus (CA-MRSA) • Staphylococcus aureus • Bacillus subtilis • Salmonella typhi • Salmonella enterica serotype Typhi • Sarcina lutea • Desulfovibrio vulgaris • Chromobacterium violaceum • Enterococcus faecalis • Enterobacter aerogenes • Erwinia carotovora subsp. atrosepticum • Yersinia pestis • Saccharomyces cerevisiae • Fusarium oxysporum • Phomopsis placei • Fusarium moniliforme • Leuconostoc mesenteroides • Lactobacillus rhamnosus • Pseudomonas maltophilia • Active Ingrediants

Poisonous missiles • Phosphine vapors • Hydrogen Cyanide • Sodium cyanide • Chlorine gas • Acetic acid • Hydrogen sulphide • Phosgene gas on skin • Hydrogen Sulfide • Hydrogen cyanide • Phosgene gas on skin

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: COPROPHAGE. Causes irreversible eye damage and skin burns. Harmful if inhaled. Harmful if ingested. Harmful if swallowed. Harmful if absorbed through the skin.

FIRST AID
IF IN EYES: Holk eye open and rinse slowly with water for 15-20 minutes. Remove any contact lenses. If pain persists, seek medical attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Keep person at a safe distance to avoid being exposed. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove the victim to fresh air. If person is not breathing, call 911 for an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

TREATMENT OF EXPOSURE: Provide the product container or label with you when calling a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Prolonged mucosal damage may contraindicate the use of gastric lavage. Give adequate aspiration, keep airway clear. Counteract respiratory depression and circulation may be needed. For medical emergencies only call 911-303-0441. Outside North America call 613-622-8960.

DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or any water bodies until you have consulted with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.

STORAGE AND DISPOSAL

Do not contain volatile, food, or feed by storage or disposal.

Pesticide Storage: Open dumping or storage in warehouses accessible to children.

Pesticide Disposal: Pesticide wastes are toxicologically hazardous. Improper disposal of pests, spill, mist, or mix is a violation of Federal law. If waste disposal cannot be disposed of by one according to labeling instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Site Representative of the EPA.
