For use in hospitals, nursing homes, schools, colleges, universities, commercial and industrial institutions, office buildings, veterinary clinics, animal life science laboratories, zoos, Jack shops, pet shops, zoos, kennels, hospitals, schools, by chemical suppliers and processing establishments.

Disinfects, cleans, and deodorizes the following hard, nonporous, inanimate surfaces: floors, walls, non-metallic countertops, stainless steel, glass, tile, porcelain, plastic, and hard surfaces not damaged by alkaline solutions (such as polypropylene, polyethylene, acrylic, etc.).

Use to clean and disinfect nonporous articles, such as bedding, mattresses, athletic shoes, exercise equipment and training tables.

For use in cleaning, sanitizing, and decontaminating articles, and inanimate objects, such as tools, equipment, and other hard, nonporous surfaces.

PEUGEOT: SI NO PUEDE LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DIRECCIONES PARA USO

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DILUTE (1:16) 2 ounces per gallon of water (860 ppm)

This product is for use on hard non-porous surfaces.

DISINFECTION / CLEANING / DEODORIZING DIRECTIONS: Remove heavy soil deposits from surface. Then thoroughly wet surface with a solution of 2 ounces of the concentrate per gallon of water. (Use 9 to 12 ounces of water to kill Adenovirus Type 5.) The use-solution can be applied with a cloth, mop, sponge, or sprayer or by spraying. For sprayer applications, use a coarse spray device. Spray 6 to 8 inches from the surface. Rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Hinging of floors is not necessary unless they are to be waxed or polished.

Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the foodcontact surfaces: utensils, glassware and dishes.

For Human Coronavirus, treated surfaces must remain wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

For Influenza Virus Type A, treated surfaces must remain wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

BACTERICIDAL STABILITY UNDER DILUTION: Tests confirm that BUCKEYE SANICARE PINE QUAT, when diluted in 200 ppm hot water (via use of automatic dispensing devices), remains effective against Pseudomonas aeruginosa and Staphylococcus aureus and Salmonella enteritidis for up to one year when stored in a treated container such as a spray bottle. If product becomes visibly dirty or contaminated, the use-dilution must be discarded and fresh product prepared. Always use clean, properly labeled containers when diluting this product. Bactericidal stability of the product does not apply to open containers such as buckets or pails.

FUNGICIDAL DILUTION: Apply as a wet or dry cleaner for soil release, as an antiskid, as a moisture control, as a solution for stains or grease, as clean as possible surfaces in the absence of water, and as a stain remover for galvanized metal, stainless steel, or aluminum.

VETERINARY PRECAUTION / ANIMAL CARE / ANIMAL LABORATORY / ZOOS / PET SHOP / KENNELS DISINFECTION DIRECTIONS: For cleaning and disinfecting hard non-porous surfaces: equine, canine, feline, avian, bird, human, and rabbit cages, etc. Remove all animals and birds from premises, animal transportation crates, etc. Remove all litter, droppings and manures from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering apparatus. Thoroughly clean all surfaces with soap and detergent and rinse with water. Sterilize all surfaces with a solution of 1:100 (0.1%) BUCKEYE SANICARE PINE QUAT per gallon of water (or equivalent dilution) for a period of 10 minutes. If used as a post-surgery agent, wash all animal handling and restraining equipment as well as floors, surfaces and floorscrapers used to relieve and manure-watering areas. When not in use, clean and sanitize thoroughly before use. Thoroughly clean and sterilize all surfaces that come into contact with food, including equipment used for feeding or watering, with soap and detergent and rinse with potable water before re-use. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

For Heavy Duty Cleaning and/or Odor Control: When greater cleaning is desired, use 4 to 8 oz. (0.1% to 0.2%) BUCKEYE SANICARE PINE QUAT per gallon of water. Heavily soiled areas may require repeated cleaning before treatment.

KILLS HIV-1 (AIDS VIRUS) AND HBV (HEPATITIS B VIRUS) AND HCV (HEPATITIS C VIRUS) ON PRECLEANED, ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BODY FLUIDS IN HEALTH CARE SETTINGS OR OTHER SETTINGS IN WHICH THERE IS AN EXPECTED LEVEL OF SEEPING OR INNATURE SURFACES/OBJECTS WITH BLOODFLUIDS, AND IN WHICH THE SEEPING OR INNATURE SURFACES/OBJECTS CAN BE ASSOCIATED WITH THE POTENTIAL FOR TRANSMISSION OF HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 (HIV-1) (ASSOCIATED WITH AIDS) OR HEPATITIS B VIRUS (HBV) OR HEPATITIS C VIRUS (HCV).

Special Instruction for Cleaning and Decontamination against HIV-1 (AIDS Virus) or HBV or HCV of Surfaces/Objectsocted with Blood/Body Fluids:

Personal Protection: Disposable protective gloves, gowns, face masks, and eye coverings, as appropriate, must be worn during all cleaning of blood/blood fluids and during decontamination procedures.

Cleaning Procedures: Blood/blood fluids must be thoroughly cleaned from surfaces/ojects before application of disinfectants.

Context Time: HIV-1 (AIDS virus) inactivates after a contact time of 4 minutes at 25°C (77°F) (room temperature). HBV and HCV are inactivated after 10 minute contact time. Use a 15-minute contact time for other viruses, fungi, and bacteria listed.

Disposal of Infectious Materials: Blood/blood fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes immediate eye injury. Do not get in eyes or clothing. Wear protective eye wear (goggles, face shield, or safety glasses). Avoid contact with the skin. Form of Inhaled. Avoid breathing spray. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and inset slowly and gently with water for 15 - 20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately and thoroughly with plenty of water for 15 - 20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Prone to mucosal damage may contaminate the use of gastric lavage. For medical emergencies only, call 900-330-0443. Outside North America call 615-842-5289.

ENVIRONMENTAL HAZARDS

Do not discharge effluent into stormwater or drainage systems, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without notifying the local sewer authority and obtaining a permit from the regulating agency. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contain this product, or used for storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Disposal: Pesticide wastes are hazardous. Improper disposal of pesticides can cause a violation of Federal Law. If these wastes cannot be disposed of by use according to the label instructions, call your State Pesticide Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Rinse three times as follows: Fill container with full water and recycle the container. Agitate vigorously and dispose of container consistent with pesticide disposal instructions. Pack two more times. Then pour remaining water and all stirrings into disposal facility approved by state and local authorities. Pesticide disposal instructions for nonsite. If not fully rinsed, these containers are acute hazardous wastes and must be disposed of in accordance with local, state, and federal regulations.

TOTAL: 99.72%

KEEP OUT OF REACH OF CHILDREN
