NET CONTENTS: 1 U.S. QUART / 946 mL
BUCKEYE SANICARE Disinfectant Restroom Cleaner not only helps control the hazards of cross-contamination on treated hard, nonporous, environmental surfaces, but also kills many microorganisms that cause odors. Formulated for use in schools, colleges and office buildings, health care facilities, medical and dental offices, nursing homes and airports. Use BUCKEYE SANICARE Disinfectant Restroom Cleaner on washable hard, nonporous surfaces of Floors, Walls, countertops, Bathtubs, Shower stalls, Sinks (bathroom), Fiberglass bathtubs & sinks, Urinals, Toilet bowls, Toilet bowl surfaces, Garbage cans, Cabinets, and Chairs. Use this product on other hard nonporous surfaces made of Glazed ceramic, Glazed porcelain, Glazed enameled surfaces, Formica®, Stainless steel, and Plastic (such as polystyrene or polypropylene).

BATHROOM: Great for cleaning and deodorizing basins, tubs and glassed tile. Leaves everything bright and clean, kills odor causing bacteria. Odors disappear instantly. Use where odors are a problem. BUCKEYE SANICARE Disinfectant Restroom Cleaner is a one step Hospital use disinfectant, Bactericidal according to the current AOAC Use-Dilution Test Method, Fungicidal according to the AOAC Fungicidal Test and Virucidal* according to the virucidal qualification modified in the presence of 5% organic serum against: Bacteria: Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica and Streptococcus pyogenes. Viruses:*Herpes Simplex Type 2 (Herpes), *HIV-1 (the AIDS virus) and *Influenza Type A/Brazil Virus (Influenza). Fungi: Aspergillus niger and Trichophyton mentagrophytes (Athlete’s Foot Fungus) (Cause of Ringworm). Kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu). DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces. DISINFECTION / *VIRUCIDAL / FUNGICIDAL / MOLD & MILDEW DIRECTIONS: If surfaces are visibly dirty preclean first. Apply BUCKEYE SANICARE Disinfectant Restroom Cleaner with a mop, sponge, cloth or spray on hard, nonporous surfaces to thoroughly wet surfaces. For sprayer applications use a coarse spray device. Spray 6-8 inches from surface. Avoid breathing spray. Rub with a brush, sponge or cloth. Treated surfaces must remain wet for 10 minutes. Wipe dry with a clean cloth, or sponge or allow to air dry. Rinse is not necessary on floor surfaces that are to be waxed or polished. For mold and mildew control, repeat application weekly or when growth reappears. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. This product should not be used to clean utensils, glassware and dishes. TO CLEAN AND/OR DEODORIZE: Apply by mop, sponge, cloth or spray on hard, nonporous surfaces. Wipe dry with a clean cloth, or sponge, or allow to air dry. SANITIZING NON-FOOD CONTACT SURFACES: Use on washable, hard, nonporous surfaces: walls, floors, tables, garbage cans and telephones. The product is effective against Staphylococcus aureus and Enterobacter aerogenes in the presence of 5% serum. Apply by mop, sponge, cloth or spray to thoroughly wet surfaces for a minimum contact time of 5 minutes. Wipe dry with a clean cloth or sponge, or allow to air dry. Do not use in food preparation, food handling and food storage areas. Do not use to sanitize glassware, dishes or utensils. TO CLEAN AND DISINFECT TOILET BOWLS AND URINALS: Remove gross filth from bowl. Remove or expel over the inner trap residual bowl water. Use 4 ounces of product in toilet bowl or urinal. Apply (squeeze) directly around bowl and under rim; then brush or swab thoroughly. Allow product to remain on surface for a contact time of 10 minutes; then flush toilet. This product, when used as directed, will not harm white or colored bowls or inanimate, hard surfaces. Close cap on container after use. KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED, ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. Personal Protection: Disposable protective gloves, gowns, face masks, or eye covers, as appropriate, must be worn during all cleaning of body fluids, blood and decontamination procedures. Cleaning Procedures: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. Contact Time: Effective against HIV-1 (AIDS virus) on hard, nonporous surfaces in the presence of a moderate amount of organic soil (5% blood serum) (providing 1300 ppm of active quaternary) for a contact time of 5 minutes at room temperature (20-25°C). Use a ten (10) minute contact time for disinfection against all other bacteria, fungi and viruses claimed. DISPOSAL OF INFECTION MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
