DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR CLEANING AND BRIGHTENING:
Preflush equipment with water. Use 1 ounce of product per 3 gallons of water for immersion and brush cleaning of lightly soiled food contact surfaces and utensils and follow by a potable water rinse to remove food soils. To clean and brighten central recirculation systems preflush with water. Circulate 1 oz. of product per 3 gallons of water through system for 10 minutes or longer. Drain and rinse with potable water to remove food soils. Two ounces of product per 3 gallons of water is effective for high pressure spray cleaning using a coarse droplet. Follow with potable water to remove food soils and chemical spray.

FOR FINAL SANITIZING RINSE:
1. Preflush with potable water to remove gross food particles.
2. Clean with recommended alkaline cleaner.
3. Rinse with potable water.
4. To sanitize, rinse with a solution of 1 oz. of product per 6 gallons water. This can be done by flushing, immersion, circulation or spray operations. Surface should remain wet for at least 5 minutes.
5. Drain and air dry. Allow adequate draining before contact with food.

For manual operations, fresh sanitizing solution must be prepared at least daily. Prepare more often if the solution becomes diluted or soiled. Solution used in spray operations may not be re-used for sanitizing. Only 1 sanitization per solution is allowed. The solution, if not soiled, may be used for cleaning, polishing stainless steel, or descaling.

1 ounce/3 gallons solution of this product contains 88 ppm of dodecybenzene sulfonic acid and a total acidity of 1450 ppm expressed as H2PO4.

This product averages 17.8% phosphorus in the form of phosphates, which is equal to 5.0 grams per ounce of product.

MICROBIOLOGICAL DATA:
RESULTS: FSD-34 at 1:768 (1 ounce/6 gallons water) reduces bacterial numbers by 99.999% when tested by this method with a 30 second contact time in 500 ppm hard water. The organisms used in these tests were Escherichia coli (ATCC 11229), Staphylococcus aureus (ATCC 8538), and Listeria monocytogenes (ATCC 15313).

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of all excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or into a large tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer container for recycling, if available.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting agency has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Total ......................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN DANGER

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF SWALLOWED: Call poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

1-800-851-7145

Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate gastric lavage.

See additional precautionary statements on side panel.

Copyright 2009 JohnsonDiversey, Inc.

SKU# 02239100

LOT #:
For use in spray, circulation, or immersion cleaning and disinfection/disinfectant sanitization of previously cleaned, hard, non-porous food-contact surfaces and equipment, such as food preparation surfaces, tanks, transport tank trucks, pre-wash/conditioning units, boot-scrubbing equipment such as glasses, dishes, utensils, pans, and parts bins; cutting tables and other utensils and equipment in:

- Dairy and Beverage Plants
- Meat and Poultry Processing/Packaging Plants
- Dairy Processing/Packaging Plants
- Food Processing/Packaging Plants
- Food Service Industry/Eating Establishments

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For CLEANING AND BRUSHING:

Pour 3% solution of product per gallon of water for immersion and brush cleaning of lightly stained food contact surfaces and utensils and follow by a potable water rinse to remove loosened soil. To clean and brighten stainless-steel equipment, 1% solution of product per gallon of water is effective for high pressure spray cleaning using a coarse spray. Follow with potable water to remove food soils and chemical spray.

For FINAL SANITIZING RINSE:

1. Prefill with potable water to remove gross food particles.
2. Clean with recommended alkaline cleaner.
3. Rinse with potable water.
4. To sanitize, mix with a solution of 1 cup of product per 1 gallon of water. This can be done by flushing, immersing, circulation or spray operations. Surface should remain wet for at least 5 minutes.
5. Clean and air dry. Allow adequate draining before contact with food.

For manual operations, fresh sanitizing solution must be prepared at least daily. Prepare more often if the solution becomes diluted or soiled. Sulfuric acid in spray operators may not be used for sanitizing Only 1% solution per gallon is allowed. The solution, if not cooled, may be used for cleaning polishing stainless steel, or descaling.

This product contains 11% phosphoric acid in the form of phosphates, which is equal to 5.0 grams per square foot of product.

PHYSICAL AND CHEMICAL HAZARDS

Combustible. Do not use or store near heat or open flames. Avoid product contact with other cleaners or chemicals as hazardous gases or heat may be generated. This is only used with water.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals:

DANGER: Corrosive. Causes immediate eye damage or skin burns. Harmful if swallowed or inhaled through the skin or mouth. Do not get in eyes, on skin, or on clothing. Avoid breathing mist. Wear protection clothing and gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

Acid product. Do not mix with other cleaners or chemicals as hazardous gases or heat may be generated. This is only used with water.
