Acid Cleaner Sanitizer

FOR CLEANING AND BRIGHTENING:

Two ounces of product per 3 gallons of water is effective for high pressure spray cleaning using a coarse droplet.

Food soils. To clean and brighten central recirculation systems pre-flush with water. Circulate 1 oz. of product per 3 gallons of water for immersion and brush cleaning of lightly soiled food contact surfaces and utensils and follow by a potable water rinse to remove chemical spray.

FOR FLUSHING AND BRIGHTENING:

A solution of one ounce per gallon for immersion and brush cleaning shows the effectiveness and broad cleaning of highly contaminated contact surfaces and adheres for potable water rinse to remove food soils. Two to six ounces per gallon is effective for heavy grime spray cleaning. A more effective solution for steam cleaning can be obtained by mixing equivalent parts of hot water and steam spray.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. Discharge of the chemical may result in a violation of Federal Law. This product is corrosive. Do not mix with other cleaners or chemicals as hazardous fumes may be generated. Grill barbecue with care when using this product.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

Acid Cleaner Sanitizer

For Industry Use

DIRECTIONS FOR USE:

1. Pre-flush with potable water to remove gross food particles.
2. Clean with recommended alkaline cleaner.
3. Rinse with potable water.
4. To sanitize, rinse with a solution of 1 oz. of product per 6 gallons water. This can be done by flushing, immersing, or spraying operation.
5. Rinse to remove product.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate gastric lavage.

IF IN EYES:

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or doctor for treatment advice.

IF SWALLOWED:

Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

Have person wash skin with soap and water if able to do so. If person is not breathing, call 911 or doctor for treatment advice.

IF IN EYES:

Continued rinsing for 15 minutes. Offer container for recycling, if available. OR store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer container for recycling, if available.

CONTAINER DISPOSAL:

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container with tap water. The organisms used in these tests were Staphylococcus aureus, Listeria monocytogenes, and Escherichia coli (ATCC 6538), and Pseudomonas aeruginosa. Results: FSD-34™ at 1:768 (1 ounce/6 gallons water) reduces bacterial numbers by 99.98% (a 1000 fold decrease). A.O.A.C., 15th Ed., 1990.
