Powdered Detergent/Disinfectant

CLEANER • DETERGENT • DISINFECTANT • FINGERPRINT REMOVER • MILDEWSTABILIZER (on hard, moldy, mildewy surfaces)

POWDERED (against pathogenic fungi) Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)

ALKYL (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides....................................... 7.95%
FUNGICIDE (against pathogenic fungi)  Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu) ............................... 84.10%

STORAGE AND DISPOSAL
This product is designed to be used as a disinfectant in health care environments such as hospitals, nursing homes, and other institutions where personal protective equipment (PPE) is worn. When used as a disinfectant, it is necessary to ensure that all personal protective equipment is used and that all surfaces are clean and dry before treatment with Powdered Detergent/Disinfectant. It is recommended that this product be used in accordance with the directions for use provided in this manual. For more information on the proper use of Powdered Detergent/Disinfectant, contact your State Pesticide or Environmental Control Agency, or your local health department.

DIRECTIONS FOR USE:
Prepare the following solutions:
- 0.5 oz. of Powdered Detergent/Disinfectant per gallon of water
- 1 oz. of Powdered Detergent/Disinfectant per gallon of water
- 1.5 oz. of Powdered Detergent/Disinfectant per gallon of water

To disinfect inanimate, hard non-porous surfaces:
- Add one 0.5 oz. premeasured packet of Powdered Detergent/Disinfectant to 1 gallon of water.
- Use a pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

**STORAGE**:
The user must comply with all OSHA regulations (Code of Federal Regulations Title 20, Part 1910), and U.S. Environmental Protection Agency (EPA) regulations (40 CFR 172) when handling and storing this product. This product is a hazardous waste under the Resource Conservation and Recovery Act (RCRA). If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or your local health department. If not available, puncture and dispose of in accordance with your local hazardous waste disposal laws. It is illegal to dispose of this product in any manner that will cause it to be a hazardous waste under RCRA regulations.

**DISPOSAL OF INFECTIOUS MATERIALS**:
- Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Powdered Detergent/Disinfectant.
- The product is designed to be used as a disinfectant in health care environments such as hospitals, nursing homes, and other institutions where personal protective equipment (PPE) is worn. When used as a disinfectant, it is necessary to ensure that all personal protective equipment is used and that all surfaces are clean and dry before treatment with Powdered Detergent/Disinfectant. It is recommended that this product be used in accordance with the directions for use provided in this manual. For more information on the proper use of Powdered Detergent/Disinfectant, contact your State Pesticide or Environmental Control Agency, or your local health department.

**PERSONAL PROTECTION**:
- Respirators and other respiratory protection equipment (e.g., masks, respirators, gas masks) may be required when using this product. Respirators and other respiratory protection equipment should be worn by all persons who may be exposed to the product during its use.
- If the product comes into contact with skin, gowns, or other clothing, protective clothing should be worn.
- If the product comes into contact with skin, gowns, or other clothing, protective clothing should be worn.
- To protect the environment, this product should be disposed of in accordance with local waste disposal laws.

**PRECAUTIONARY STATEMENTS**:
- **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**
- **DANGER**
- Keep out of reach of children.
- **WARNING**
- Do not use on greenhouses, angelfish, or aquatic plants.
- **CAUTION**
- Use only as directed.

**INFORMATION FOR USERS**:
- This product is designed to be used as a disinfectant in health care environments such as hospitals, nursing homes, and other institutions where personal protective equipment (PPE) is worn. When used as a disinfectant, it is necessary to ensure that all personal protective equipment is used and that all surfaces are clean and dry before treatment with Powdered Detergent/Disinfectant. It is recommended that this product be used in accordance with the directions for use provided in this manual. For more information on the proper use of Powdered Detergent/Disinfectant, contact your State Pesticide or Environmental Control Agency, or your local health department.

**EPA REGISTRATION**:
- This product is registered with the Environmental Protection Agency (EPA) under registration number 1839-93-3640. It is a disinfectant that is designed to provide effective cleaning and disinfection in a variety of settings, including health care environments. It is important to follow the directions for use provided in this manual to ensure that the product is used safely and effectively.

**DISINFECTION**:
- To disinfect inanimate, hard non-porous surfaces, add one 0.5 oz. premeasured packet of Powdered Detergent/Disinfectant to 1 gallon of water. Use a pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

**CLEANING PROCEDURES**:
- To clean inanimate, hard non-porous surfaces, add one 0.5 oz. premeasured packet of Powdered Detergent/Disinfectant to 1 gallon of water. Use a pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

**MILDEWSTABILIZER**
- This product is designed to be used as a stabilizer for mildew in health care environments such as hospitals, nursing homes, and other institutions where personal protective equipment (PPE) is worn. When used as a stabilizer, it is necessary to ensure that all personal protective equipment is used and that all surfaces are clean and dry before treatment with Powdered Detergent/Disinfectant. It is recommended that this product be used in accordance with the directions for use provided in this manual. For more information on the proper use of Powdered Detergent/Disinfectant, contact your State Pesticide or Environmental Control Agency, or your local health department.

**DESTRUCTION**:
- To destroy contaminated materials, do not clean or incinerate. Use 5% bleach solution (1:10) of premeasured packets of Powdered Detergent/Disinfectant in 1 gallon of water. Mix well and apply to contaminated materials; let stand 5 minutes and then remove with a clean cloth and discard. For the destruction of infectious medical waste, follow the instructions provided by the Environmental Protection Agency (EPA) and your local health department.

**DISPOSAL OF WASTE MATERIALS**:
- Most waste materials can be disposed of in accordance with local waste disposal laws. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or your local health department. If not available, puncture and dispose of in accordance with your local hazardous waste disposal laws. It is illegal to dispose of this product in any manner that will cause it to be a hazardous waste under RCRA regulations.

**TOTAL WEIGHT**: 2.81 lbs / 2.01 kg

**90 WATER-SOLUBLE PACKETS**
each containing 0.56 oz./14.17 g of product

**See back panel for additional precautionary statements.**
