**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, absorbed through the skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Keep away from children, domestic animals and pets.

Personal Protective Equipment (PPE):
All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks and waterproof gloves. Any person who retrieves carcasses or exposed bait following application of this product must wear waterproof gloves.

User Safety Requirements:
• Follow manufacturer's instructions for cleaning/maintaining PPE. If for such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately after last use.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing.
• Do as much possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**FIRST AID**

**IF SWALLOWED**
• Call a poison control center or doctor at 1-800-377-7737 immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.

**IF ON SKIN OR CLOTHING**
• Take off contaminated clothing.
• Immediately rinse skin with plenty of water for 15-20 minutes.
• Call a poison control center or doctor at 1-800-377-7737 immediately for treatment advice.

**IF INHALED**
• Move person to fresh air.
• If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, as needed.
• Call a poison control center or doctor at 1-800-377-7737 immediately for treatment advice.

**IF IN EYES**
• Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present. After the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor at 1-800-377-7737 immediately for treatment advice.

**TREATMENT FOR PET POISONING**

If animal baited, call a veterinarian at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Anticoagulant Chlophenacinone: If your pet eats this product, treat pet immediately and refer to the accompanying Anticoagulant Poisoning Guide for treatment advice.

ENVIRONMENTAL HAZARDS

This product is environmentally toxic to mammals and birds. Dogs and other predators and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or invertebrates are likely to be present, such as manholes. Do not contaminate water when disposing of equipment or waste water.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

READ THIS LABEL. Read this entire label and follow all use directions and use precautions. Use only for sites, pests and application methods described on this label.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:
1. Store product out of use, in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife or in "lure-resistant" bait stations. These stations must be resistant to destruction by dogs and by children under 6 years of age and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If baits are stolen from stations when they are lifted, means must be secured or otherwise removed completely by the owner or other person to whom it is delivered.
3. Dispose of container and unused bait of any unopened package of bait as specified on this label.

Note: Bait stations are mandatory for outdoor use. Outdoor use of bait stations is recommended for indoor use as well. Do not use in areas accessible to children, pets, non-target mammals or birds as they may come into contact with bait.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**
SEE PANELS BELOW FOR ADDITIONAL, PRECAUTIONARY STATEMENTS

**USE RESTRICTIONS**

This product can be used to control Norway rats, roof rats and house mice in and within 100 feet of man-made structures or to prevent reinfestation or to maintain or attracting non-target animals such as birds, raccoons, skunks, feral cats, rabbits, certain species of birds and rodents. This product must be applied in a manner that prevents such children from reaching into bait compartments and obtaining bait. If baits are stolen from stations when they are lifted, means must be secured or otherwise removed completely by the owner or other person to whom it is delivered.

Do not adjoining water, food, feed, fountains, fountains or food banking equipment or milk or meat handling equipment or surfaces that come into direct contact with feed. When used in USA, canned feed, this product must be applied in a manner that prevents children from reaching into bait compartments and obtaining bait. Do not use in or near water.

**Baiting Rates**

This product may be applied to central Norway rats and roof rats or to other feeding areas within 100 feet of man-made structures or to prevent reinfestation or to maintain or attract non-target animals such as birds, raccoons, skunks, feral cats, rabbits, certain species of birds and rodents. Do not use in or near water. Do not adjoining water, food, feed, fountains, fountains or food banking equipment or milk or meat handling equipment or surfaces that come into direct contact with feed. When used in USA, canned feed, this product must be applied in a manner that prevents children from reaching into bait compartments and obtaining bait. Do not use in or near water.

**SELECTION OF TREATMENT AREAS**

Determine areas where rats or mice will most likely find and consume the bait. Generally, these are along walls, by growered openings, or in moisture areas. Refer to the accompanying Anticoagulant Poisoning Guide for treatment advice.

**APPLICATION DIRECTIONS**

The amount of bait in each 6 month to one year supply of bait is sufficient to kill more than one rat or mouse per day. Refer to the accompanying Anticoagulant Poisoning Guide for treatment advice.

**Baiting Rates**

For Norway Rats: 1 pack per 150 square feet. For roof rats per 150 square feet. For mice use 1 pack per 150 square feet. For birds per 150 square feet. For insects per 150 square feet. For snails and slugs per 150 square feet. For ants per 150 square feet. For termites per 150 square feet. For cockroaches per 150 square feet. For spiders per 150 square feet. For earwigs per 150 square feet.

**STORAGE AND DISPOSAL**

DO NOT CONSUME WATER, FOOS, OR FEED BY STORAGE OR DISPOSAL.

• Postbait Storage: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

• Postbait Disposal: Waste resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

• Container Handling: Non-institute containers. Do not reuse or fill this container. Bury it or otherwise dispose of it in a sanitary landfill or by incineration.

• Notes: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this material in strict accordance with directions given herein.
