- Do not contaminate water, food, or feed.
- Para-Dichlorobenzene is toxic. Improper disposal of excess para-chlorobenzene, spray mixture, or mist is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
- Discarded or spilled Para-Dichlorobenzene is a hazardous waste. RCRA Hazardous Waste No. U-272.

EMPTY CONTAINER:
- Becomes hazardous waste when returned to the producer or end user. containers must be disposed of according to federal, state, and local regulations.

WAX MOTH CONTROL DIRECTIONS

Treatments with Para-Dichlorobenzene require no special storage facilities. The products should be stored as tightly as possible, and special precautions should be taken to keep out the gas, which is heavier than air, and cannot escape at the bottom of the stack. This can be accomplished by laying several layers of newspaper down prior to stacking the boxes. For long periods of storage or over winter, the clamps between boxes should be covered with strips of tape.

INSTRUCTIONS FOR USE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For the control of pests in starches and bee hives. See all panels for the handling. Wax MOTH CONTROL DIRECTIONS for instructions in the use of this product.
