**PRECAUTIONARY STATEMENTS:**

**Poisons:** animals, not for household use.
**CAUTION:** Harmful if swallowed. Avoid contact with eyes, mouth, or skin.
Avoid contact with eyes, mouth, or skin. Wash thoroughly with water after handling and before eating, drinking, chewing gum, use toothpastes or using the toilet. Avoid breathing sprays, mists, and smoke generated by use of MRSA.

**USER SAFETY REQUIREMENTS:** Follow manufacturer’s instructions for cleaning/maintaining PPE, FHS, and other equipment used to handle and treat water. Keep smiles away from the mouth, wash thoroughly with water after handling and before eating, drinking, chewing gum, use toothpastes or using the toilet. Avoid breathing sprays, mists, and smoke generated by use of MRSA.

**FIRST AID:** If swallowed, call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. If inhaled: More person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration if needed. If inhaled, call a Poison Control Center or doctor for further treatment advice.

**CLEANUP:** Never mix with other products or cleaners. Use only as directed. Always use with clean, warm, soapy water. Do not use with any other sprays, mists, or smoke generated by use of MRSA. In case of an emergency for additional information, call toll free 1-800-151-5657.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed storage areas. Do not use in or around food or feed areas.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of in a sanitary and/or by procedures approved by state and local authorities.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST TOXIC SURFACES OR OBJECTS COATED WITH BLOOD OR BODY FLUIDS:** When cleaning and handling blood or other body fluids or when handling procedures which might lead to contact with blood or body fluids, wear heavy gloves such as disposable gloves, gowns, masks, and eye covering.

**CLEANING PROCEDURES:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of ProSpray. ProSpray may be used for this purpose.

**CONTACT TIME:** Allow surface to remain wet for one minute at 60°F (15.5°C). Virulent, pathogenic, or fumigative organisms are discussed in the literature. Use of this product is recommended to prevent transmission of viruses or bacteria. PCE 1088. Use a five-minute contact time for Mycobacterium tuberculosis on hard, non-porous surfaces. Bacterial spores or antigens of Tuberculosis species, such as Mycobacterium tuberculosis, can be inactivated and/or dispersed according to local regulations for waste disposal.

**DISPOSAL OF INFECTIOUS OR TOXIC MATERIALS:** Blood and other body fluids must be incinerated and/or dispersed according to local regulations for waste disposal.

**ProSpray** kills MRSA and is pre-cleaned environmental surfaces/objects previously coiled with blood body fluids in healthcare settings or other settings in which there is an expected likelihood of contact with contaminated surfaces/objects with blood or body fluids. In all of the circumstances, likely to be in contact with blood or body fluids can be assessed by the associated potential for transmission of human immunodeficiency virus Type 1 (HIV-1).
