rev. 10-04-2011

**MWB 67 302 The East Mall Suite 200 Toronto, Ontario, Canada**

The product of this equipment is not intended for use in generating chlorine dioxide to control bacterial slime in pulp & paper white water. Use in generating chlorine dioxide to control bacterial slime in pulp & paper white water is hazardous due to the formation of reactive chlorine dioxide gas.

**Environmental Hazards**

**Physical or Chemical Hazards**

- Gas/waste: Gas/waste from the equipment is hazardous due to the formation of reactive chlorine dioxide gas.

**PRECAUTIONARY STATEMENTS**

**Precautionary Statements**

- Keep out of reach of children

**Hazard to Humans and Domestic Animals**

**First Aid**

- Consult local physician if exposed to chlorine dioxide gas.

**Hazards of Substance**

- Calcium hypochlorite

**Precautionary Measures**

- Do not mix with acids or other substances that cause a violent reaction.

**Inhalation**

- Avoid breathing the gas.

**Handling**

- Do not handle the equipment without a protective suit and mask.

**Storage & Disposal**

- Do not contaminate water, food or feed by storage or disposal.

**Method of Application**

- Follow the label instructions for the equipment.

**Dosage, Rate, Frequency and Concentration**

- Follow the label instructions for the equipment.

**Avoid Incompatible Substances**

- Do not mix with acids or other substances that cause a violent reaction.

**Environmental Hazards**

- Chlorine dioxide gas is hazardous due to the formation of reactive chlorine dioxide gas.

**Precautionary Measures**

- Do not mix with acids or other substances that cause a violent reaction.

**Inhalation**

- Avoid breathing the gas.

**Handling**

- Do not handle the equipment without a protective suit and mask.

**Storage & Disposal**

- Do not contaminate water, food or feed by storage or disposal.

**Method of Application**

- Follow the label instructions for the equipment.

**Dosage, Rate, Frequency and Concentration**

- Follow the label instructions for the equipment.

**Avoid Incompatible Substances**

- Do not mix with acids or other substances that cause a violent reaction.

**Environmental Hazards**

- Chlorine dioxide gas is hazardous due to the formation of reactive chlorine dioxide gas.

**Precautionary Measures**

- Do not mix with acids or other substances that cause a violent reaction.

**Inhalation**

- Avoid breathing the gas.

**Handling**

- Do not handle the equipment without a protective suit and mask.

**Storage & Disposal**

- Do not contaminate water, food or feed by storage or disposal.

**Method of Application**

- Follow the label instructions for the equipment.

**Dosage, Rate, Frequency and Concentration**

- Follow the label instructions for the equipment.

**Avoid Incompatible Substances**

- Do not mix with acids or other substances that cause a violent reaction.

**Environmental Hazards**

- Chlorine dioxide gas is hazardous due to the formation of reactive chlorine dioxide gas.

**Precautionary Measures**

- Do not mix with acids or other substances that cause a violent reaction.

**Inhalation**

- Avoid breathing the gas.

**Handling**

- Do not handle the equipment without a protective suit and mask.

**Storage & Disposal**

- Do not contaminate water, food or feed by storage or disposal.

**Method of Application**

- Follow the label instructions for the equipment.

**Dosage, Rate, Frequency and Concentration**

- Follow the label instructions for the equipment.

**Avoid Incompatible Substances**

- Do not mix with acids or other substances that cause a violent reaction.

**Environmental Hazards**

- Chlorine dioxide gas is hazardous due to the formation of reactive chlorine dioxide gas.

**Precautionary Measures**

- Do not mix with acids or other substances that cause a violent reaction.

**Inhalation**

- Avoid breathing the gas.

**Handling**

- Do not handle the equipment without a protective suit and mask.

**Storage & Disposal**

- Do not contaminate water, food or feed by storage or disposal.
