Kills Infestations, Prevents and Eliminates Termites, Drywood Termites, Carpenter Ants, Wood Destroying Beetles and Fungi (Decay (white rot, brown rot and dry rot))

Long Lasting Protection for Wood in Contact with the Ground

KEEP OUT OF REACH OF CHILDREN

CAUTION:

Hazardous if ingested or absorbed through skin. Avoid breathing vapors. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Thoroughly wash with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. Avoid contamination of food or feed.

First Aid (continued)

If on Skin or Clothing

- Take off contaminated clothing.
- Immediately rinse skin with plenty of water for 15-20 minutes.

If In Eyes

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If Exposed to Dust or Vapors

- Do not induce vomiting unless instructed to do so by a physician.

Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-424-9300 for emergency medical treatment information.

Environmental Hazards

This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate wells or cisterns. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsates.

DIFFUSIBLE BORACIDE

Kills: Infestations, Prevents and Eliminates Termites, Drywood Termites, Carpenter Ants, Wood Destroying Beetles and Fungi (Decay (white rot, brown rot and dry rot))
Long Lasting Protection for Wood in Contact with the Ground

KEEP OUT OF REACH OF CHILDREN

CAUTION

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS
Hazard to Humans & Domestic Animals
CAUTION: Harmful if inhaled or absorbed through skin. Avoid breathing vapors. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Thoroughly wash with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. Avoid contamination of food or feed.

First Aid

Borate Pesticide

If Inhaled

Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If on Skin or Clothing

Take off contaminated clothing.
Immediately rinse skin with plenty of water for 15-20 minutes.

If in Eyes

Hold eye open and rinse slowly and gently with water for 15-20 minutes.
Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.

First Aid (continued)

Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

Environmental Hazards
This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate wells or streams. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsates.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTICE
Read and understand the entire label before using. Use only according to label directions.

Before buying or using this product, read Warranty Disclaimer and Limitation of Remedies statements found elsewhere on this label. If terms are unacceptable, return unopened package to seller for full refund of purchase price. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer and Limitation of Remedies.

SAFE HANDLING PROCEDURES
The use of chemical splash goggles and solvent resistant gloves is advised. Spills may be cleaned with a damp cloth or absorbed with appropriate materials. When applying Jecta Diffusible Boracide in confined spaces, it is recommended that ventilation or an exhaust system be provided. If this is impractical, the use of a NIOSH approved respirator designed for protection from organic vapors is recommended.

PRODUCT INFORMATION
Jecta Diffusible Boracide is highly concentrated to provide a long-lasting reservoir of active boron ingredient to wood, particularly in high risk or moist areas. Because of its high concentration and controlled diffusion rate, Jecta Diffusible Boracide is recommended for treating wood in contact with the ground or soil. Jecta Diffusible Boracide controls and prevents wood decaying fungi, wood destroying beetles and termites. Jecta Diffusible Boracide has no known resistance.

Jecta Diffusible Boracide eliminates existing wood destroying insects and fungal infestations and provides residual protection against:
- Sclerotium Termites: Ricinus/Alfitus, Heterotermes
- Formosan Termites: Coptotermes
- Drywood Termites: Kalotermes, Inotermes
- Dampwood Termites: Zootermopsis, Neotermites
- Powderpost Beetles: Lyctus, Scaphidius
- Ambellid Beetles: Anoplophora

Carpet Bees: Compeiva
Old House Borers: Longhorned Beetles: Cerambycidae, Hydrophorus
Ambrosia Beetles: Platypus, Scolytus
Fungi Decay (white rot, brown rot and dry rot)

Jecta Diffusible Boracide contains 40% by weight dibromochloroethyl tetrahydroformaldehyde formulated in a patented carrier system that facilitates rapid penetration throughout wood of any moisture content. Jecta Diffusible Boracide is particularly suited for treatment of wood that is coated with a water resistive finish or is in ground contact, such as fence posts and utility poles. It is not necessary to remove any wood finish prior to injection of Jecta Diffusible Boracide.

Use of this product does not substitute for mechanical alteration, soil treatment or foundation treatment; but is merely a supplement to a termite monitoring control program.

In new construction Jecta Diffusible Boracide is to be used as a supplemental treatment in conjunction with termite treatments. For existing structures, use Jecta Diffusible Boracide as a remedial treatment. The 40% active boron gel diffuses deep into wood and allows access to powered, stained or sealed wood. Use Jecta Diffusible Boracide for hard-to-reach areas including: Flooring and foundation systems; Window and door framing and headers; Exterior steps, porches and decks; Roof trim and soffits; Violated or susceptible support beams; Porches and garages; Fence posts, pilings and piles; Log construction, Utility poles, Railroad ties, sleepers.

NOTES: If any wood member's structural integrity has been reduced to the extent that repair or replacement is necessary, make such repairs and/or replacement prior to treating with Jecta Diffusible Boracide. Jecta Diffusible Boracide does not add structural integrity to previously damaged wood.

I. APPLICATION METHODS
Jecta Diffusible Boracide is designed for application to wood by injection into voids, cracks, pre-drilled holes or injection sleeves designed for this purpose. To facilitate re-application in high risk areas, use a plug of material such as cork, rubber, wood or cork to seal the injection site into Jecta Diffusible Boracide through any wood surface coating. Place injection sites in either a staggered, linear or angled pattern. Inject Jecta Diffusible Boracide throughout the infested area and for at least 6 inches on either side of wood showing any sign of infestation.

Space injection holes at even intervals throughout the infested area to provide the best distribution of Jecta Diffusible Boracide. Drill holes at a downward angle to help retain liquid in place while sealing holes, if a long section of a beam or member is being treated, do not exceed a 24-inch spacing between holes.

II. APPLICATION STEPS
1. Measure the dimensions and length of the zone of wood to be treated. If the zone has an active infestation, calculate amount to include on additional six (6) to twelve (12) inches on either side of the infested area. Refer to Table 1 for the amount of Jecta Diffusible Boracide required to treat various size wood members.
2. Refer to Table 2 and select the appropriate size and number of holes to accommodate the required amount of Jecta Diffusible Boracide, if possible, drill holes to extend to the center of the wood member being treated. Do not drill holes that significantly decrease the structural strength of any wood member.
3. Inject the proper amount of Jecta Diffusible Boracide into holes.
4. Seal holes with a cement, plastic or wooden plug, exterior wood putty or rubber stoppers.
5. Remove any excess Jecta Diffusible Boracide from the surface with a damp cloth or sponge.

III. APPLICATION SITES
Use Jecta Diffusible Boracide in areas where wood decay or insects are present or in high risk areas vulnerable to infestation, such as wood that remains moist or is subject to frequent wetting, or wood that is in contact with the ground or soil. Examples include:
- Flooring and Foundation Systems
- Window and Door Framing and Headers
- Exterior Steps, Porches and Decks
- Roof Trim and Soffits
- Utility Poles
- Railroad Ties (Sleepers)
- Fence Posts, Pilling and Piers
- Porches and Garages

Storage and Disposal
Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Non-refillable container; do not reuse or refill this container. Clean container promptly after empitying then offer for recycling, if available, or reconditioning, if appropriate; or puncture and dispose of container in a sanitary landfill; or, if allowed by state and local authorities, by incineration. Lot Number may be found on container.

WARRANTY DISCLAIMER
Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To the extent not prohibited by applicable law, MANUFACTURER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use
The Directions for Use of this product are believed to be adequate and must be carefully followed. It is impossible to eliminate all risks associated with use of this product. Look of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, the presence of other materials, climatic conditions or the manner of use/application, all of which are beyond the control of the Manufacturer. All such risks shall be assumed by the buyer.

Limitations of Remedies
To the extent not prohibited by applicable law, the exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability or other legal theories) shall be limited to, at Manufacturer’s election, one of the following: 1. Refund of purchase price paid by buyer or user for product bought, or 2. Replacement of amount of product used.

To the extent not prohibited by applicable law: a) Manufacturer shall not be liable for losses or damages resulting from handling or use of this product unless Manufacturer is promptly notified of such loss or damage in writing; and b) IN NO CASE SHALL MANUFACTURER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR LOSSES, INCLUDING WITHOUT LIMIT, HEALTH RELATED DAMAGES OR INJURIES.

The terms of this Warranty Disclaimer and Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Manufacturer or the seller is authorized to vary or exceed the terms of this Warranty Disclaimer or Limitation of Remedies in any manner.
