**REMARKS**

SPRAY TREATMENT:
- Apply specified dosage for a complete wetting to run-off. Treat no more than six times per year.
- Do not make applications less than 10 days apart.
- Do apply to sick, convalescent or stressed livestock or to animals less than 3 months old. Do not spray animals for 10 days before or after shipping or weaning or after exposure to contagious and infectious diseases. Do not spray in a confined, non-ventilated area.
- Do not treat areas such as feed bunk, mangers, or troughs where livestock feed or drink.
- Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or milk handling equipment.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Individuals must limit the number of animals they treat per day with hand held sprayers to no more than 100. If the animals are treated at the maximum label rate, 200 triples would be 20 lbs of Co-Ral Fly and Tick Spray mixed easily with water to form an emulsion which is easily applied with ordinary spray equipment. One spray treatment is highly effective for control of flies, lice and ticks and provides residual control.

**FIRST AID**

If swallowed: • Call a poison control center or doctor immediately for treatment advice. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

If inhaled: • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

If on skin or clothing: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for treatment advice.

If in eyes: • Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

**HOTLINE NUMBER:** Have the product container or label with you when calling a poison control center or doctor for treatment advice. For emergency medical treatment information, call 1-800-424-8874. For customer service or to obtain product information, including MSDS, call 1-800-433-3796.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to mammals, birds, fish and aquatic invertebrates. Coo-Ral washed off treating treated livestock may be hazardous to aquatic organisms. Do not contaminate water when disposing of equipment washer or rinsate.

**CONTAINER DISPOSAL:** Non-returnable container. Do not feed livestock or fish. Container. Keep and wash PPE separately from the other laundry.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Pesticide waste are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse is a violation of Federal Law. If these waste cannot be disposed of by use according to label directions, contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
