PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might soon as possible.

HAZARDS TO NONTARGET WILDLIFE

Birds, mammals, and reptiles and amphibians may be poisoned if they feed upon animals that have eaten this bait. Do not apply this product outdoors.

STORAGE AND DISPOSAL

Storage - Keep out of the reach of children. Store in a dry, cool place.

Disposal - Nonrefillable container. Do not reuse or refill this container.

FIRST AID

In case of human exposure to bait:

1. Remove person from area.
2. Remove contaminated clothing and footwear.
3. Wash hands and any other exposed skin with soap and water.

In case of animal exposure:

1. Call a veterinarian.
2. Do not attempt to induce vomiting.

FIRST AID FOR ANIMAL EXPOSURE

If in Eyes

1. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
2. Hold the eyelids open with your fingers and flush 15 minutes with running tap water.
3. Consult a veterinarian.

If Swallowed

1. Do not induce vomiting unless told to do so by the poison control center or doctor.
2. Have person sip a glass of water if able to swallow.
3. Call a poison control center, or doctor, or 1-800-498-5743 immediately for treatment advice.

NOTE TO PHYSICIAN

If ingested, the material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer vitamin K1, intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

If in Skin or on Clothing

Remove clothing and wash skin as soon as possible. Call 1-800-498-5743 immediately for treatment advice.

Remove contaminated or exposed clothing and shoes. Have affected person wash and change clothes and footwear immediately. Fan the area to dissipate any remaining vestiges of the bait. Wash affected clothing and shoes in hot, soapy water. If material is on skin, wash affected skin with soap and water.

PRECAUTIONS

Do not apply this product outdoors. This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might soon as possible.

USE RESTRICTIONS

Do not use this product outdoors or in areas accessible to children, pets, domestic animals, or contact with birds and/or reptiles.

APPLICATION DIRECTIONS

Determine areas where house mice will most likely find and consume the bait. Determine areas where there is an indication of rodent activity and where rodents are likely to be found.

SELECTION OF TREATMENT AREAS

This product may only be used to control house mice (Mus musculus). This product is intended for use in and around dwellings, such as homes, apartment complexes, resorts, motels, hotels, office, malls, stores, schools, hospitals, farms, warehouses, and food processing plants. This product is also for use in and around hospitals, homes, hotels, and restaurants, and in and around food processing plants, public buildings, residential areas and recreational areas.
