Net Content: 3.78 L (1 US gal)

DIRECTIONS FOR USE
Refer to insert for complete DIRECTIONS FOR USE.
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
To be used in hospitals in the following areas as a disinfectant: operating rooms, patient care rooms & facilities,
recovery, anesthesia, ER, radiology, X-ray cat labs, newborn nurseries, orthopedics, respiratory therapy, surgi-centers,
labs, blood collection rooms, central supply, housekeeping & janitorial rooms, nursing homes, doctor's offices & labs,
dentists offices & labs (dental operators).

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is
introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of
the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or
otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or
semi-critical medical devices prior to sterilization or high level disinfection.

In addition, this product may be used as a disinfectant in schools, sick rooms, rest rooms, shower rooms and
industries.

Disinfection/Fungicidal/Virucidal Directions:
Apply use solution to hard inanimate, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or
sprayer. For heavily soiled areas, a preliminary cleaning is required. For sprayer applications use a coarse spray
device. Spray 6-8 inches from surface and rub with brush, sponge or cloth. Do not breathe spray.
Add 2 ounces per gallon (16 milliliters per liter) of water to disinfect hard, non-porous surfaces. Treated surfaces must
remain wet for 10 minutes. Prepare a fresh solution at least daily or when use dilution becomes diluted or soiled.

Hospital, Dental Offices, Nursing Homes and other Health Care Institutions Disinfection/Fungicidal and
Virucidal* Dilution Chart:

At 2 ounces per one gallon (or equivalent use dilution of 1:64) in the presence of 300 ppm hard water (CaCO3). This
product was proven to be effective against Hepatitis B Virus with a contact time of 10 minutes.
Precautionary Statements

Hazards to Humans and Domestic Animals

Danger. Keep out of reach of children. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear protective eyewear (goggles, face shield or safety glasses). Wear protective clothing and rubber gloves. Avoid contamination of food. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Statement of Practical Treatment - First Aid

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional medical advice, call the following emergency phone number: 1-800-325-0025.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Physical or Chemical Hazards

Combustible. Do not use or store near heat or open flame.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Do not store on site. Avoid creasing or impacting of side walls. Store securely in closed original container. Avoid storage at temperature extremes or in sunlight. Avoid shipping or storing below freezing. If product freezes, thaw at room temperature and shake gently to remix components. Use locked storage in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows:

Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container [A full] with water and recap. Shake for 10 seconds. Discard rinsate. Drain for 10 seconds after the flow begins to drip. Repeat these procedures two more times.

Nonrefillable container. Do not use or refill this container. Offer for recycling if available.
