DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is part of an advanced pool care system that uses the POOL FROG Mineral Reservoir (EPA Reg. No.: 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the POOL FROG Cycler. You never have to touch the chlorinating tablets.

USE DIRECTIONS:

1. Adjust pH level to 7.2-7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer’s Label Directions.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take POOL FROG Cycler cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into POOL FROG Mineral Reservoir. The end of the pac must align with the key located inside the POOL FROG Cycler at the bottom. DO NOT FORCE. Replace cycler cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the POOL FROG Mineral Reservoir. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Brand Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you do not have to re-adjust the setting under normal conditions. If conditions change (i.e. weather, pool use, bather load, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Super chlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting #0 before super chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE.

NOTE: Some settling may occur during shipment. DO NOT REMOVE LABEL 420-43-1420. NPTN hotline number for public information: 1-800-858-7278.

Model 5051

SEE FIRST AID AND ADDITIONAL PRECAUTIONARY STATEMENTS ON BACK PANEL

FIRST AID: If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to Physicians: Probable mucosal damage may contaminate the use of gastric lavage.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: CORROSIVE: If product is removed from its prefilled container, causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Follow directions for use carefully. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive. Strong oxidizing agent. Non-refillable container. Do not attempt to refill empty pac. Place only into water or installed equipment made for this product. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flame or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL: Do not contaminate food or feed with this product.

Physical or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not reuse or refill this pac. Shake the pac over the pool and away from your face to ensure it is empty before offering for recycling if available or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

IMPORTANT: The warranty will be void if this pac is not used with the appropriate POOL FROG Cycler. Fire or explosion may result if this pac is used with an incorrect chemical feeder.

**PRODUCT DESCRIPTION:**

This pesticide is toxic to fish and aquatic organisms. Use of this product is prohibited in the state of Massachusetts.

**ENVIRONMENTAL HAZARDS:**

- This product contains chemicals which may be toxic to the aquatic environment. Do not contaminate water, food, or feed with this product.
- The worst potential environmental impact from this product is contamination of ground or surface water. Some settling may occur during shipment. Do not handle, transport, or store this product in anything that might contaminate water, food, or feed.

**PRECAUTIONARY STATEMENTS:**

**Hazards to Humans and Domestic Animals:**

- **DANGER:** CORROSIVE:
  - If product is removed from its container or label with you when calling a poison control center or doctor, or going for treatment.

**If Inhaled:**

- Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Have person sip a glass of water if able to swallow. If person is unconscious, do not give anything by mouth.

**If Swallowed:**

- Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

**If on Skin or Clothing:**

- Take off contaminated clothing and shoes. Rinse skin immediately with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water.

**If in the Eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If in the Mouth:**

- Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**STORAGE AND DISPOSAL:**

- This product is not compatible with certain types of store equipment. It is not compatible with some types of waste disposal equipment. Do not contaminate food or feed with this product.

**MECHANICAL HAZARDS:**

- Do not touch the chlorinating tablets. This product is toxic to fish and aquatic organisms.

**PRECAUTIONS FOR USE:**

- Do not mix this product with any other chemicals. Use this product in accordance with the manufacturer’s instructions.

**PHYSICAL OR CHEMICAL HAZARDS:**

- This product is toxic to fish and aquatic organisms. Use of this product is prohibited in the state of Massachusetts.

**ENVIRONMENTAL HAZARDS:**

- This product contains chemicals which may be toxic to the aquatic environment. Do not contaminate water, food, or feed with this product.
- The worst potential environmental impact from this product is contamination of ground or surface water. Some settling may occur during shipment. Do not handle, transport, or store this product in anything that might contaminate water, food, or feed.

**PRECAUTIONARY STATEMENTS:**

**Hazards to Humans and Domestic Animals:**

- **DANGER:** CORROSIVE:
  - If product is removed from its container or label with you when calling a poison control center or doctor, or going for treatment.

**If Inhaled:**

- Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Have person sip a glass of water if able to swallow. If person is unconscious, do not give anything by mouth.

**If Swallowed:**

- Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

**If on Skin or Clothing:**

- Take off contaminated clothing and shoes. Rinse skin immediately with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water.

**If in the Eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If in the Mouth:**

- Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
### DIRECTIONS FOR USE:

1. **Model 540C for use in the POOL FROG XL PRO® Chlorine Cycler**
   - **Keep Out of Reach of Children**
   - **DANGER**
   - SEE FIRST AID AND ADDITIONAL PRECAUTIONARY STATEMENTS ON BACK PANEL

   Model 540C is part of an advanced pool care system that uses the POOL FROG® Chlorine Cycler. The end of the pac must align with the key located inside the pac. Do not attempt to open or refill this pac. Place the FAC residual and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine feed.

   **FROG XL PRO® Chlorine Cycler**
