DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is part of an advanced pool care system that uses the POOL FROG® Mineral Reservoir (EPA Reg. No.: 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the POOL FROG® Cycler. You never have to touch the chlorinating tablets.

USE DIRECTIONS:
1. Adjust pH level to 7.2–7.8.
2. Bring Free Available Chorline (FAC) residual to 1.0 ppm using a chorline shock.
3. Follow Manufacturer's Label Directions.
4. Stabilize the pool with a cyanuric acid stabilizer. Follow Manufacturer's Label Directions.
5. To install pac: Take POOL FROG® Cycler cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into POOL FROG® Mineral Reservoir. The end of the pac must align with the key located inside the POOL FROG® Cycler at the bottom. Do not force. Replace cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the POOL FROG® Mineral Reservoir. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Brand Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not over chlorinate.
6. Superchlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting #9 before super-chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.

FIRST AID: If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then, give artificial respiration, preferably by mouth-to-mouth, if possible.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: CORROSiVe: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dusts or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive. Strong oxidizing agent. Do not refill empty pac. Use only clean dry container. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unbalanced chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL: Do not contaminate food or feed with this product. Store in original container in a cold, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container and flood area with large amounts of water to dissolve all material before discarding this pac. Pesticide Disposal: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer. Container Disposal: Non-refillable container. Do not store or re-use this container. Offer for recycling if available. Rinse thoroughly before recycling or discarding in trash. IMPORTANT: The warranty will be void if this pac is not used with the appropriate POOL FROG® Cycler. Fire or explosion may result if this pac is used with an incorrect feeder.
DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is part of an advanced pool care system that uses the POOL FROG Mineral Reservoir (EPA Reg. No.: 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the POOL FROG Cycler. You never have to touch the chlorinating tablets.

USE DIRECTIONS:

1. Adjust pH level to 7.2 - 7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer's Label Directions.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer's Label Directions.
4. To install pac: Take POOL FROG Cycler cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into POOL FROG Mineral Reservoir. The end of the pac must align with the key located inside the POOL FROG Cycler at the bottom. DO NOT FORCE. Replace cycler cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the POOL FROG Mineral Reservoir. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Brand Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter until the chlorine residual is at least 0.5 ppm. Keep Out of Reach of Children.
5. Once you have determined the proper setting for your pool, you do not have to re-adjust the setting under normal conditions. If conditions change (i.e. weather, rain, pool use, bather load, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Superchlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting #0 before super-chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac.

NOTE: Some settling may occur during shipment. DO NOT REMOVE LABEL, POOL FROG, or NFPTN hotline number for public information: 1-800-658-7378. EPA Reg. No.: 53735-11

THE EASIER ALTERNATIVE TO BULK CHLORINE

The No-Hassle Way to a Clean Pool

Reduced Odors and No Touching or Measuring Chlorine.

MODEL #01-05-1413

- Pre-filled
- Lightweight
- Easy to Use
- Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

20-44-1023
530081/53080

What Makes this Pool Care System Better than the Rest?

1. Convenient
   Pre-filled/pac/chamber eliminates exposure to chlorine fumes or chlorine safety and convenience.

2. Long Lasting
   Trichloroacetic acid in each chamber keeps chlorine dry so it lasts longer with less consumption per season.

3. Precise
   The controlled chemistry maintains the right amount of sanitization for each pool.

STORE IN A COOL, DRY PLACE
IN CASE OF EMERGENCY CALL CHEMTEX® AT (800) 424-9500.
