RESTRICTED USE PESTICIDE
Due to acute toxicity to humans, aquatic organisms and avian species. For retail sale to and use only by certified applicators or persons under their direct supervision, and only for those uses covered by the certified applicator's certification.

SUPPLEMENTAL LABELING

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

DREWEL ENDOSULFAN 3EC
EPA REG. NO. 19713-399
EPA SLN NO. WA-980012

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This label must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

ALFALFA GROWN FOR SEED
For control of Spotted alfalfa aphids and Lygus bugs, apply a maximum of 1.33 quarts of this product per acre when insects appear in a minimum of 25 gallons of water per acre using ground boom equipment only.

RESTRICTIONS / PRECAUTIONS
- Do not enter or allow worker entry during the restricted entry interval (REI) of 7 days.
- Do not apply more than 1.33 quarts of this product (1 lb. a.i.) per acre per season.
- Do not apply this product by air or through any type of irrigation system.
- Do not make more than 2 applications per season.
- Do not apply within 21 days of harvest.
- Do not apply within 100 feet of rivers, natural ponds, lakes, streams, reservoirs, marshes, estuaries, and commercial fish ponds.
- A 30 foot vegetative buffer strip must be maintained between all treated areas with this product and rivers, natural ponds, lakes, streams, reservoirs, marshes, estuaries, and commercial fish ponds.
RESTRICTIONS / PRECAUTIONS (continuation)

- All alfalfa seed screenings shall be disposed of in such a way that they cannot be distributed or used for human food or animal feed. The seed conditioner shall keep records of screening disposal for 3 years from the date of disposal and shall furnish the records to the WSDA immediately upon request. Conditioner disposal records shall consists of documentation of on-farm disposal, disposal at a controlled dumpsite, incinerator, composter or other equivalent disposal and shall include the lot numbers, amount of material disposed of, the grower(s), and the date of disposal.

- No portion of the alfalfa seed plant, including but not limited to green chop, hay, pellets, meal, whole seed, cracked seed, roots, bulbs, leaves and seed screenings may be used or distributed for food or feed purposes.

- Alfalfa seed shall bear a tag or container label which forbids use of the seed for human consumption or animal feed.

- Alfalfa seed may not be distributed for human consumption or animal feed.

- This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or broadleaf weeds. Do not apply 1.33 quarts (1 lb. a.i.) per acre to blooming alfalfa grown for seed; apply at that rate as a prebloom or postbloom spray only. Application of 1.33 pints (0.5 lb. a.i.) per acre to blooming alfalfa grown for seed must be timed to coincide with periods of minimum activity, between late evening and midnight.

- This product is extremely toxic to fish and aquatic invertebrates and toxic to birds and mammals. Drexel Endosulfan 3EC should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program website at http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

WSDA CONTAINER DISPOSAL GUIDANCE

Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.

This label for Drexel Endosulfan 3EC expires and must not be distributed in accordance with this SLN registration after May 31, 2016. It is unlawful to use this product on alfalfa grown for seed after July 31, 2016.
