PRECAUTIONARY STATEMENTS:

HAZARD TO HUMANS AND DOMESTIC ANIMALS: DANGER. Harmful if swallowed. Causes eye and skin irritation. Do not get in eyes or on skin or clothing. Avoid breathing dust. Wash thoroughly after handling. Wash clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID): IF SWALLOWED: Wash mouth thoroughly and drink large quantities of water. Do not induce vomiting. Get medical attention. IF INHALED: Remove person to fresh air immediately. Seek medical attention. IF IN EYES: Flush eyes immediately with cold water for at least 15 minutes. Seek medical attention if irritation persists. IF ON SKIN: Wash immediately with plenty of soap and water. Seek medical attention if irritation persists. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: Reducing agent. Avoid breathing dust from this product. Do not allow this product to come in contact with acids or oxidizing agents under conditions other than described in the directions for use. Add this product to water only. Negligent mixing of this product with acids or oxidizing agents may cause the release of poisonous, corrosive hydrogen bromide or bromine gas.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with labeling. Always add Pink Treat® directly to pool. TO CONTROL BLOOMS OF RED AND PINK ALGAE, PINK AND WHITE SLIME, AND PINK AND WHITE WATER MOLD IN POOLS TREATED WITH CHLORINE OR BROMINE:

STEP 1: Add 2 lbs. of Pink Treat® per 20,000 gallons of water. Broadcast Pink Treat® directly onto pool water surface.

STEP 2: Brush pool.

STEP 3: Independent of the chlorine level, immediately add 4 gallons of 5 lbs. dry chlorine per 20,000 gallons water as an initial shock treatment.

STEP 4: Wait 1 hour before entering pool. Observe the required waiting period for the chlorine or bromine product used with Pink Treat® if greater than 1 hour.

STEP 5: Chlorinate continuously with tablets or a chemical feeder. When using liquid only, add slow dissolving tablets (trichloro-s-triazinetrione) during summer and heavy swimming conditions. Test chlorine with OTO (yellow chlorine test) and let stand for 5 minutes before reading.

STEP 6: To prevent recurrence of pink and red algae, pink and white slime, and pink and white water mold, and to maintain crystal clear water, No Mor Problems® may be used in conjunction with chlorine or bromine. Follow the Directions for Use for No Mor Problems®. Maintain the chlorine or bromine level recommended on the chlorine or bromine product label.

STEP 7: Repeat above steps if algae are visible in pool.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by the use, storage or disposal of this product. STORAGE: Store in a dry, well ventilated area out of the reach of children and away from oxidizers. Keep container closed when not in use. DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
