ENHANCED SWIMMER COMFORT

SYNERGY

Tabs
Exclusively designed for use with the Synergy System.
Patented technology.® Specifically formulated for use in automatic and floating type feeders. Increased sanitizer efficiency.

By Simplicity®

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID: IF IN EYES: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Induce vomiting if necessary. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, if needed. If person is not breathing, if known amount is swallowed, call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor for treatment advice. Do not give anything by mouth to an unconscious person.

Active Ingredients:
Trichloro-s-triazinetrione 91.5%
Disodium tetraborate pentahydrate 8.5%

Other Ingredients: 0.0%

Total Ingredients: 100.0%

NET WEIGHT: 5.5 Lbs. (2.49 kg)
This product is specifically formulated for use in automatic and floating type feeders. It provides highly effective pool water sanitation and algae control when used in this manner. This combination of ingredients enhances the water quality to reduce potential eye and skin irritation. This product is formulated to disperse more cleanly and uniformly in automatic feeders thereby reducing plugging, fouling, maintenance requirements and adjustments.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Prior to using this product, the filter system should be properly cleaned and backwashed and the pool water pH adjusted to 7.2 to 7.6. It is recommended that the pool be superchlorinated to establish a chlorine residual of 2 ppm of free chlorine.

**INITIAL APPLICATION:** This product is specially designed for use in floaters and automatic type feeders except for bromine only type feeders (See Notice below). Prior to adding this product to the floater, refer to the operating instructions provided by the manufacturer of the unit. Add to the floater an initial supply of tablets (1 tablet per 10,000 gallons of pool water). Close the floater, making sure the lid is securely tightened. Adjust the feed rate to the lowest setting according to the manufacturer's instructions. Approximately 3 to 4 days after adding the initial supply of tablets to the floater, turn off the pump, open the feeder and observe the quantity of tablets remaining. If more than 1/2 of the tablets are gone contact your Synergy dealer for recommendations on how to reduce your feed rate. If less than 1/2 of the tablets remain in the feeder, turn pump back on and check the residual sanitizer in the pool water using a test kit or test strips. Adjust the feeder to provide a sanitizer level within the ideal range of 0.5 to 1 ppm in the pool water.

**ROUTINE MAINTENANCE:** Test pool water regularly (at least weekly) and check feeder weekly. Refill as needed. Add additional product and adjust the feeder as needed to maintain an ideal sanitizer level of 0.5 to 1 ppm in the pool water. Regular use of a test kit or test strips is recommended to maintain certain adequate levels of sanitizer and proper pH are being maintained in the pool water.

**NOTICE:** Do not use this product in automatic brominators. Use of this product through a brominizer type feeder could cause an adverse chemical reaction or explosion resulting in serious bodily injury, death or property damage. Feeding into treated swimming pools is prohibited above levels of 3 ppm chlorine.

**STORAGE AND DISPOSAL:** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not contaminate food or feed by storage or disposal. CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

**PRECAUTIONARY STATEMENTS**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: Danger: Irritates eyes and skin. Causes skin burns and irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not breathe dust. Do not get in eyes, on skin or on clothing. Wear protective eyewear (safety glasses) and rubber gloves when handling product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wash hands before eating, drinking, chewing tobacco, or using the toilet.

**PHYSICAL OR CHEMICAL HAZARDS:** Strong oxidizing agent. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use care when handling. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will ruin a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In cases of contamination or decomposition, do not re-treat container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms.

**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions.

The SYNERGY SYSTEM is a patented method for treatment of swimming pools. Additional patents pending.
