DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FOR THE PRESERVATION OF CLAY SLURRIES, ADHESIVES, COATINGS AND HIGH VISCOSITY SUSPENSIONS: For preservation of slurries and high viscosity suspensions, AMA®-424 should be added at a point in the processing system where there will be sufficient time and agitation for good mixing and dispersion. Add AMA®-424 at use levels of 0.04 - 0.1% by weight, based on the total formulation in slurries of starch, clay, calcium carbonate or titantium dioxide; paper coating; high viscosity suspensions (e.g. polymers, silico-polymer combinations); polyvinyl alcohol/polyvinyl acetate based adhesives; starch based adhesives; dextrin based adhesives. The exact amount of material to be added for the preservation of any given formulation will depend on the components and local storage conditions. Dosage rates should be determined by actual test.

AMA®-424
(ANTIMICROBIAL AGENT)

Active Ingredient: Tetrahydro-3,5-dimethyl-2H-1,3,5-thiadiazine-2-thione 24%
Inert Ingredients: 76%
TOTAL: 100%

(for industrial use only)

KEEP OUT OF REACH OF CHILDREN

DANGER

First Aid

If in eyes: - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If swallowed: - Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing: - Remove contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment.

If inhaled: - Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment.

Have product container, label or label information with you when calling a poison control center or doctor or going for treatment.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.
This product may cause an aspiration pneumonia hazard.

Contact CHEMTREC at 800-424-9300 for additional information.
See side panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes severe eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. If used in cooling water systems, appropriate PPE (long pants, long-sleeved shirts, chemical resistant gloves, and goggles or face shield) must be used when applying this product. Harmful if swallowed or absorbed through skin. Avoid contamination of food.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates, and shrimp. Do not apply (or use) in estuarine or brackish water bodies or on areas where abstractions or effluents are discharged into streams, rivers, or estuaries having fish, aquatic invertebrates, or shrimp populations. Do not apply in or near ponds, wetlands, estuaries, bays, lakes, or other bodies of water in which fish or aquatic invertebrates are present. The use of this product may result in contamination of surface and ground water. This pesticide must not be used when surface and ground water is in use. This product may be harmful to wildlife and is not recommended for use in areas frequented by wildlife. To minimize risk to wildlife, keep product and undiluted mixture away from water bodies, food and feed areas, bird feeders, animal water sources, and areas frequented by wildlife.

PHYSICAL OR CHEMICAL HAZARDS:
Do not use, spill, pour or store near open flame.

STORAGE AND DISPOSAL:
Non-refillable container. Do not reuse or refill this container.
Do not contain water, food, or feed by storage or disposal.

STORAGE: Protect from freezing and temperatures in excess of 140°F. Keep container closed when not in use. If contents are spilled or leaked due to container damage, collect liquid with absorbent material and dispose of in accordance with local, state and federal pesticide disposal regulations.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal Law. These wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
