DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RESTAURANT AND BAR USE: For use as a sanitizer on dishes, glassware, silverware, and eating and cooking utensils. For heavily soiled areas, remove gross food deposits, wash with detergent or comparable cleaner before rinsing with gentle water prior to application of this product. Then immerse in a solution of 1 oz. per 19 1/2 gallons of water (200 ppmquat) for at least 1 minute. Drain thoroughly and air dry. See reference sheet and MSDS for additional directions and product information. Use only in a non-potable water environment.

PHYSICAL/CHEMICAL HAZARDS: This pesticide is a cationic germicide. Do not mix with soap or anionic materials. Do not use or store near heat or flame.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. May be fatal if swallowed. Do not breathe vapor or spray mist. Do not get in eyes, on skin or on clothing. Do not mix with water. Place protective eyeglasses, face shield or goggles, protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Avoid contact with eyes, skin, clothing and shoes. Do not share personal protective equipment. Do not expose to strong oxidizing agents. Do not use near pregnant women or children. Do not use near an audience of children, pets, or livestock.

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN

WARNING: For Medical Emergency ONLY call: 24 Hour Emergency Response Number 1-866-923-4913

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or runoff is a violation of Federal Law. These wastes cannot be disposed of by use according to label instructions. Contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Wrap empty container and discard in trash or offer for recycling.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Do not apply in marine or estuarine waters or oil fields.

ACTIVE INGREDIENTS:

Didecyl dimethyl ammonium chloride........................ 30.00%

INERT INGREDIENTS:...................................... 50.00%

TOTAL:................................................ 100.00%

EPA Est. No. 7546-WI-1

Bactericidal against Pseudomonas aeruginosa, Staphylococcus aureus, and Salmonella enterica according to the AOAC Use-Dilution Test method, modified in the presence of 5% organic serum.

BACTERICIDAL AGAINST:
Effective against the following according to the AOAC Use-Dilution Test, modified in the presence of 5% organic serum.

Pseudomonas aeruginosa
Mycoplasm gallisepticum
Staphylococcus aureus
Proteus mirabilis
Salmonella enterica
Salmonella typhi
Serratia marcescens
Shigella flexneri
Enterobacter aerogenes
Staphylococcus aureus phage 80

FUNGICIDAL & MILDEWICIDAL AGAINST:
Effective against the following according to the AOAC Use-Dilution Test, modified in the presence of 5% organic serum.

Aspergillus glaucus
Trichophyton mentagrophytes
Candida albicans

VIRUCIDAL AGAINST*:
Effective against the following according to the virucidal qualifications modified in the presence of 5% organic serum.

Avian Infectious Bronchitis virus
Bovine rhinotracheitis virus
Newcastle virus
Avian Influenza Virus (HSN1)
Marek’s Disease virus
Infectious Bronchitis Virus, Arkansas strain (IBV)

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION/DEODORIZING DIRECTIONS:
If surfaces are visibly dirty, preclean prior to disinfection/deodorizing activity. Prepare a solution of 2 oz. of product per 15 ½ (or 2 ounces of product per 14 gallons of water) gallons of water. Apply use-solution with a cloth, sponge, mop, coarse trigger sprayer, or by soaking to thoroughly wet all surfaces. For spray applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on the surface for a minimum contact time of 10 minutes. Wipe dry with a clean cloth or sponge or allow to air dry. The use solution is prepared fresh for each use then discarded. Rinsing of floors is not necessary unless they are to be waxed or polished. Food contact surfaces must be thoroughly rinsed with potable water.

FUNGICIDAL DIRECTIONS:
Fungicidal against Trichophyton mentagrophytes, Candida albicans and Aspergillus glaucus according to the AOAC fungicidal test, modified in the presence of 5% organic serum at a 1:1000 dilution. Follow Disinfection Directions.

VIRUCIDAL DIRECTIONS:
Virucidal against *Bovine rhinotracheitis, *Avian Infectious Bronchitis virus, and *Newcastle Disease virus, *Marek’s Disease Virus and *Infectious Bronchitis Virus – Arkansas strain (IBV) according to the virucidal qualification, modified in the presence of 5% organic serum at a 1:1000 dilution. Follow Disinfection Directions.

FOR SANITIZING FOOD CONTACT SURFACES:
Effective against the following according to the AOAC Germicidal & Detergent Sanitizer Test, modified in the presence of 800 ppm water hardness (calculated as CaCO3) and 150 ppm active quat: Escherichia coli and Staphylococcus aureus.

Modified in the presence of 500 ppm water hardness (calculated as CaCO3) and 200 ppm active quat against: Campylobacter jejuni, Escherichia coli (E. coli), Escherichia coli 0157:H7 (pathogenic E. coli), Listeria monocytogenes, Salmonella enterica, Shigella sonnei, Staphylococcus aureus and Yersinia enterocolitica.

For use on precleaned, hard, nonporous food contact surfaces including plastic and other hard nonporous cutting boards and chopping blocks, counter tops, tables, cooking and eating utensils and drinking glasses. For heavily soiled areas, remove gross food particles by preflush, prescrape and presoak when necessary. Wash thoroughly with detergent or compatible cleaner then rinse with potable water prior to application of sanitizing solution. Use 1 oz. per 19 ½ gallons of water(200 ppm quat) for a minimum contact time of 1 minute in a single application. Can be applied with a cloth, sponge, mop, coarse trigger sprayer, or by soaking. Eating utensils and drinking glasses must be sanitized by immersion. Thoroughly wet all surfaces. Drain thoroughly and air dry. Do not rinse.

Fresh sanitizing solution must be prepared at least daily or more often if the use solution becomes diluted. For mechanical applications, use solution may not be reused for sanitizing applications but may be reused for other purposes such as cleaning.

Before use as a sanitizer in federally inspected meat and poultry plants and dairies, food products and packaging materials must be removed from the room or carefully protected.

MOLD AND MILDEW CONTROL DIRECTIONS: To control mold and mildew on hard, nonporous surfaces wash visible soil form the surface. Then apply a use-solution of 2 fluid oz. per 15 ½ gallons with a mop, sponge, cloth, or coarse trigger sprayer so as to wet all surfaces thoroughly. Let air dry. Repeat application every 7 days to control recurrence of growth.

FOR WISCONSIN ONLY
SANITIZING EATING AND DRINKING UTENSILS IN EATING ESTABLISHMENTS
1) Scrape and pre-wash utensils and glasses whenever possible.
2) Wash with a good detergent or compatible cleaner.
3) Rinse with potable water.
4) Sanitize in a solution of 1 fluid oz. per 19 ½ - 26 gallons of water. Immerse all utensils for at least two minutes or for a contact time specified by governing sanitary codes.
5) Place sanitized utensils on a rack or drain-board to air dry.
6) Prepare fresh sanitizing solution at least daily or when visibly soiled or diluted.

NOTE: A clean potable water rinse following sanitization is not permitted under section HFS 196.13 of the Wisconsin Administrative Code.
