DIRECTIONS FOR USE

It is a violation of Federal Law to sell this product in a bottle that is not labeled with its labeling. Sani-Cide Disinfectant Pump Spray is designed specifically for use in hospitals, medical centers, and other institutions where there is a high risk of infection. It is formulated to inactivate a wide range of microorganisms, including bacteria, viruses, fungi, and spores.

Do not use on surfaces that are sensitive to strong disinfectants, such as plastic, rubber, or some types of metal. Use on non-porous surfaces only.

DISINFECTANT - DEODORIZER - CLEANER

**VIRUCIDE** (against pathogenic fungi)

**TUBERCULOCIDAL**

ACTIVE INGREDIENTS

- n-Amyl (60% C14, 20% C12, 5% C12, 5% C18)
- Dimethyl iminopropyl arsine oxide... 1.00%
- n-Amyl (60% C12, 32% C14) dimethyl ethylbenzyl arsine oxide... 0.10%

INERT INGREDIENTS

- 99.80%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panels for additional precautionary statements.

1. Use in a well-ventilated area.
2. Avoid inhaling the spray mist.
3. Do not use on surfaces that are sensitive to strong disinfectants.
4. Do not use on porous surfaces.
5. Do not use on food contact surfaces.
6. Do not use near open flames.
7. Do not use on surfaces that are sensitive to strong disinfectants, such as plastic, rubber, or some types of metal.
8. Use on non-porous surfaces only.

MILDEWSTAT - To control mold and mildew on pre-cleaned, hard, non-porous surfaces, apply surface to remain wet for 5 minutes and for HTV-1 and HV-5 minutes. No scrubbing is necessary. Wipe off with a clean cloth, mop, or sponge. This product will not erode or scorch surfaces.

ONE STEP CLEANING AND DISINFECTION OF TOILET BOWLS AND URINALS

- Remove water from bowl by flushing water over toilet with a sprayer to activate product. Press sprayer against side of the bowl to remove excess water from applicator. Apply 1 to 2 ounces of Sani-Cide onto the entire surface of the bowl for maximum cleaning. Swab bowl completely using a swab brush or toilet brush. Do not allow the towel to come into contact with the sprayer. For removal of stubborn or difficult stains, it is recommended to use a brush or toothbrush.

BACTERICIDAL ACTIVITY: Pseudomonas aeruginosa (ATCC 15442), Staphylococcus aureus (ATCC 6538), Salmonella (Salmonella enterica) serovar (ATCC 10708), Escherichia coli (ATCC 11228), Escherichia coli 0157:H7 (ATCC 15699), Listeria monocytogenes (ATCC 10403), Yersinia enterocolitica (ATCC 23711), Enterococcus faecalis (ATCC 6859), Cryptococcus neoformans (ATCC 26943), and Candida albicans (ATCC 11277).

ANTIBIOTIC-RESISTANT BACTERICIDAL ACTIVITY: Staphylococcus aureus (MSSA), Staphylococcus aureus (MRSA), Staphylococcus aureus (MRSA), and Enterococcus faecalis (ATCC 23750), Vancomycin intermediate-resistant Staphylococcus aureus (VRSA), and Enterococcus faecalis (ATCC 23750).

VIRUCIDAL ACTIVITY: This product is effective against enveloped viruses, such as influenza A and B, and other viruses, such as respiratory syncytial virus (RSV), and herpes simplex virus (HSV-1, HSV-2). It is also effective against non-enveloped viruses, such as rotavirus, norovirus, and adenovirus.

**PERSONAL PROTECTION:**

When handling items that come into contact with blood, use appropriate personal protective equipment, such as gloves, masks, and eye protection.

**DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids should be safely disposed of in accordance with the latest regulations for infectious waste disposal.
