Treated larvae continue to develop normally to the pupal stage where they die. Mansonia spp., as well as those of the floodwater mosquito complex (e.g., Psorophora spp.) and Coquillettidia spp. may be susceptible to treatment. Releases of active ingredient may be reduced by cover of briquets and inhibiting normal dispersion of the active ingredient. The product may not be effective in those situations where it is designed to release effective levels of (S)-methoprene insect growth regulator over a period up to 150 days in mosquito breeding depressions (<2 feet in depth), treat on the basis of surface area, placing one briquet per 100 ft². For application to cattail marshes and water hyacinth beds. For control of these mosquitoes, place one briquet per 200 ft². Place briquets in depressions, cattail marshes, water hyacinth beds, vegetation-choked phosphate pits, pastures, meadows, rice fields, depressions (<2 feet in depth), treat on the basis of surface area, placing one briquet per 100 ft².

**ANIMALS – CAUTION:**

**PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION:**

**ENVIRONMENTAL HAZARDS:** In an aquatic environment it may cause death of aquatic life. Do not use this material in or near a stream, lake, or pond or any other surface water. Do not contaminate water when disposing of equipment or waste. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

**FIRST AID:**

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation persists, call a physician.

If on clothes: Wash unaffected clothing before reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling, if available, or dispose of in an environmentally safe manner.

**ENVIRONMENTAL HAZARDS:**

**Waste Management:**

Do not contaminate water when disposing of equipment or waste. Store properly to avoid contamination. **It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

**Storage:**

Store in a cool place. Do not reuse empty container.

**Pesticide Disposal:**

Wastes resulting from the use of this product in bulk and those resulting from its packaging shall be disposed of in accordance with all applicable Federal, State, and local laws. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**WARRANTY AND CONDITIONS OF SALE:**

Seller makes no warranty, expressed or implied, regarding the use and handling of this product other than indicated on the label. To the extent permitted by law, Buyer agrees to defend and indemnify Seller from and against any and all claims, demands, suits, liabilities, and expenses, including attorney’s fees, that arise out of the Buyer’s use or handling of this product, except as described herein.

**WAIVER OF CONCERNS OF SALE:**

Buyer agrees that the sale of the products described herein and all associated services, if any, is conditioned on Buyer’s agreement to the terms and conditions set forth herein. If any provision of this Agreement is determined to be invalid or unenforceable, all remaining provisions shall remain in full force and effect and shall be construed as if such invalid or unenforceable provision had been excluded. Buyer’s failure to provide written notice of any alleged violation of this Agreement shall constitute acceptance of the conditions set forth herein.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If on skin or clothing

• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes

Call a poison control center or doctor for treatment advice.

FIRST AID:

ENVIRONMENTAL HAZARDS:

Prevent the emergence of adult mosquitoes including:

Anopheles, Culex, Culiseta, and Coquillettidia, as well as those of the floodwater mosquito complex (Aedes, Ochlerotatus, Mansonia, and Culex spp.):

(S)-Methoprene insect growth regulator has no effect on mosquitoes which have reached the pupal or adult stage prior to treatment.

NOTE:

ZOECON® ALTOSID® XR BRIQUETS are designed to release effective levels of (S)-methoprene insect growth regulator over a period up to 150 days in mosquito systems, i.e., storm drains or catch basins, treat all of the water-holding sites in the system to maximize the public health benefit.

Under normal conditions, one application will last the entire mosquito season, or up to 150 days, whichever is shorter.

Examples of application sites are: storm drains, catch basins, roadside ditches, fish ponds, ornamental ponds into each basin. In cases of large catch basins, follow the Application Chart to determine the number of briquets to use. For mosquito systems, i.e., storm drains or catch basins, treat all of the water-holding sites in the system to maximize the public health benefit.

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

STORAGE AND DISPOSAL:

Storage:

Store in a cool place. Do not reuse empty container.

Pesticide Disposal:

Do not contaminate water, food, or feed by storage or disposal.

Container Disposal:

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling, if available, or may be disposed of on site or at an approved waste disposal facility.
