DIRECTIONS FOR USE — It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

FOR DOGS AND CATS

1 FOR FLEAS: A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp animal to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. For best penetration, ruffle the coat, while spraying against the natural lay of the hair.

2 Cover animal’s eyes with hand. With a firm, fast stroke, spray head, ears, and chest. With cloth, rub into face around mouth, nose, and eyes. Then spray the neck, middle and hind quarters.

3 Finishing with legs and tail fast. Avoid spraying rectum and genitalis. Apply at the rate of 1 or 2 squeezes of the trigger sprayer per pound of body weight. For larger dogs, spray until damp, not saturated. Do not allow animals, cats in particular, to become chilled. Repeat every 2 months, for continuous home flea infestation prevention. If your pet becomes reinfested with adult fleas from outside sources, PETCOR® Flea Spray may be reapplied weekly.

4 FOR TICKS: Make sure spray thoroughly wet individual ticks.

FOR PUPPIES AND KITTENS

1 FOR FLEAS: Leaving the eyes, nose, and mouth exposed, treat puppies and kittens weighing less than 3 pounds by wrapping the animal in a towel that has been lightly sprayed with PETCOR® Flea Spray, for 5 to 10 minutes.

Or lightly spray a brush or cotton ball and work thoroughly into the hair coat.

Fleas may then be removed from the coat by picking or combing. Puppies and kittens over 3 pounds may be treated the same as dogs and cats as described above. Repeat every 2 months for continuous home flea infestation prevention. If your pet becomes reinfested with adult lice from outside sources, PETCOR® Flea Spray may be reapplied weekly. Do not allow animal to become chilled. DO NOT USE ON PUPPIES AND KITTENS UNDER 12 WEEKS OF AGE.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Storage: Do not store near heat or open flame. Store away from children and animals.

Container Handling: Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS — CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause dermal sensitization (skin allergy).

HAZARDS TO ANIMALS — CAUTION: Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian.
