When used as directed, HTH Spa® Brominating Tablets will disinfect and deodorize hot tub water. Keep it clean, clear, and free of odor. HTH Spa® Brominating Tablets prove the effectiveness of chlorine without the chlorine odor. Proper sanitary practices require changing water at a minimum of every 30 days.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in an amanner inconsistent with its labeling.

**DANGER:** Do not mix or use in the same container with any chemicals, bromine or other chemicals to the feeding device when using this product. A violent reaction leading to fire and explosion could result.

Re-entry into treated spas is prohibited above levels of 8 ppm due to risk of bodily injury.

**SPA DIRECTIONS:**

**NOTE:** Before using HTH Spa® Brominating Tablets in your spa or hot tub for the first time, add 1.5 oz of sodium bromide per 100 gallons of water to establish a 30 ppm bromide concentration. Also, add sodium bromide at this dosage whenever the spa or hot tub is drained and refilled. The bromide addition ensures immediate establishment of an all-bromide system, eliminating chlorine odors and maximizing skin and eye comfort.

SPA OR HOT TUB START UP: to start a new spa or hot tub, or one recently drained, clean all surfaces, backwash or clean the filter, chemically balance the calcium hardness and total alkalinity, treat with metals if present (iron, copper and manganese), and adjust the pH to 7.2-7.8. Using a suitable feeder, adjust according to the manufacturer's instructions, and HTH Spa® Brominating Tablets to maintain an active bromine concentration of 0.05 to 0.1 ppm in residential spas, and 0.3 to 1 ppm in commercial spas. Use a reliable test kit to monitor for bromine regularly. HTH Spa® Brominating Tablets range will typically vary from 0.05 to 0.10 pounds for every 30 gallons of spa water to maintain the recommended bromine concentration range. The presence of organic debris, high bather use and other factors may require a higher dosage.

**SUPEROXIDATION:** Water soluble non-filterable wastes can accumulate in the hot tub water. Do not add cloudy water and can stimulate algae growth. Superoxidation or superchlorination with a suitable oxidizing shock treatment must be done on a regular basis to remove these wastes and maintain clear sparkling water.

**STORAGE AND DISPOSAL:** Store in original container in areas inaccessible to children in a cool, dry, well-ventilated area. Do not store at temperatures above 100°F. Nonrefillable container. Do not reuse or refill this container. Discard empty container in trash or offer for recycling if available.

**FIRST AID:**

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. **NOTE TO PHYSICIAN:** Probable mucosal damage may complicate the use of gastric lavage.

**IN CASE OF EMERGENCY CALL:** 1-800-654-6911

**PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** HIGHLY CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not take internally, irritate to nose and throat. Avoid breathing dust. Use with adequate ventilation. Do not get into eyes, on skin or on clothing. Wear protective clothing; chemical resistant gloves and protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**PHYSICAL AND CHEMICAL HAZARDS:** CHEMICAL HAZARD: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. **DO NOT ADD THIS PRODUCT TO ANY DISPENSING DEVICE CONTAINING REMNANTS OF ANY OTHER PRODUCT.** SUCH USE MAY CAUSE A VIOLENT REACTION LEADING TO FIRE OR EXPLOSION. CONTAMINATION WITH MOISTURE, ORGANIC MATTER, OR OTHER CHEMICALS MAY START A CHEMICAL REACTION WITH GENERATION OF HEAT, LIBERATION OF HAZARDOUS GASES, AND POSSIBLE GENERATION OF FIRE AND EXPLOSION. In case of contamination or decomposition, do not use container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish.
