ROZONE™ 2000 MILDEWIDE
Industrial Microicide for Use in Coatings, Building Materials, Adhesives and Tackifiers

ACTIVE INGREDIENTS:
4,4'-DICHLORODI-C,4'-DICYCLOHEXYLIMIDASOLE (BISETHAZOLAMINE)
20.6%

NET WEIGHT:
100.0 KG

STORAGE AND DISPOSAL
PESTICIDE STORAGE
This product is corrosive to metal steel. Do not store or transport in unlined metal containers. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

PESTICIDE DISPOSAL
Pesticides are acutely hazardous. Improper disposal of excess pesticide or rinse water is a violation of Federal law. If these wastes cannot be disposed of by the user according to label instructions, consult your State Pesticide or Environmental Control Agency or the Hazardous Waste Management Office for guidance on proper disposal.

CONTAINER DISPOSAL
Nonreturnable containers. Do not reuse or refill this container. Triple rinse or pressure rinse container (in place) promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, watercourses, ditches, or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without first notifying the sewer system authority.

DIRECTIONS FOR USE:
For use as a microicide to control bacteria, algae and fungi in non-load bearing foundation contact coatings, below and solvent-based paints, semi-transparent stains and wood treatments. Use恨.2-3.4 pounds of ROZONE™ 2000 MILDEWIDE per 100 pounds of formulation.

BUILDING MATERIALS
For use as a microicide to control bacteria, algae and fungi in building materials such as concrete, concrete and mortar, cements, mortars, adhesives, joint and setting beds, and wood finishes. Use 0.6-1.2 pounds of ROZONE™ 2000 MILDEWIDE per 100 pounds of formulation. When used in conjunction with other approved systems, the use of a mold growth retardant is recommended for protection against mold growth in the presence of moisture and heat.

GENERAL:
Consult Federal, State or Local Disposal Authorities for Approved Alternative Procedures.

CONSERVATION OF HEADWATER:
ROZONE™ 2000 MILDEWIDE is recommended for the control of bacteria and fungi in lakes and headwaters, ponds, water supplies, water-dispersal systems, and storm drains. Add 0.1-0.4 pounds of ROZONE™ 2000 MILDEWIDE per 1000 gallons of water. This product is not used for high grade coatings or adhesives that may come in contact with food.

FOR SALE AND WARRANTY:
No unauthorized persons may use this product. Any unauthorized use is a violation of Federal law and may subject the violator to penalties. See the label on the product for more information. If you have questions about the proper use of this product, contact your local ROUME and RACE COMPANY representative. Use the product only as specified on this label. See the instructions on the label for instructions on proper use.

For questions regarding the proper use of this product, contact your local ROUME and RACE COMPANY representative. Use the product only as specified on this label. See the instructions on the label for instructions on proper use.
