MadaCide-FD
Germicidal Solution
Cleaner, Disinfector & Deodorizer
Bactericidal, Tuberculocidal, Fungicidal and Virucidal

ACTIVE INGREDIENTS:
- n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chloride = 0.154%
- n-Alkyl (66% C12, 32% C14) dimethyl ethyl benzyl ammonium chloride = 0.154%

OTHER INGREDIENTS: 99.692%

TOTAL 100.000%

Keep Out of Reach of Children
CAUTION
See side panel for additional precautionary statements
REORDER NO. 7020

Net Contents: 1 Quart (0.95 Liters)
EPA Reg. No. 1130-15-11703
EPA Est. 1130-IL-1

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

MadaCide-FD Germicidal Solution is a general purpose cleaner, deodorant and disinfectant to be used where control of cross-contamination hazards is of prime importance. MadaCide-FD Germicidal Solution provides a novel way to effectively clean and disinfect hard, non-porous environmental surfaces. MadaCide-FD Germicidal Solution aids in the reduction of cross-contamination hazards. Easy to use, no mixing or diluting, except for ultrasonic cleaning. Ready-to-use.

Use MadaCide-FD Germicidal Solution on all hard, non-porous environmental surfaces/articles including: Chrome, Foneta™ Brand, glass, painted surfaces, plastic (such as polyethylene, polypropylene, polystyrene), Plexiglas®, glass porcelain and stainless steel.

Use MadaCide-FD Germicidal Solution to clean, deodorize and disinfect such items as: Ambulance equipment/surfaces, cots/counter tops, CPR training mannequins, dental chairs/crowns/implant/surfaces, emergency equipment/burns/trauma/heart hardwars, headphones, laboratory equipment/surfaces, medical instruments/implement, nail care implements, operating room lights/tables, respiratory therapy equipment, resuscitation bags, stethoscopes, test tubes, telephones and veterinary care surfaces/instruments/implement.

DIRECTIONS FOR USE (Continued)
This product has demonstrated effectiveness against influenza strains A2/54/Verona virus and A2/10/1968 A2/1968 and is expected to inactivate all influenza A viruses including Pandemic 2009 (formally called "swine flu").

GENERAL CLEANING, PRESTERILIZATION AND DEODORIZING: Prior to distribution, prepare all surfaces with MadaCide-FD Germicidal Solution, making sure to remove all gross dirt and heavy soil. Solution to surface and allow surface to remain wet for 1 minute prior to wiping with a paper towel or clean towel/rag. ULTRASONIC CLEANING: Thoroughly pre-soak instruments under ultrasonic water to remove visible gross debris. Using 1 oz. of MadaCide-FD Germicidal Solution per liter of water in ultrasonic unit, immerse instruments in solution and ultrasonicate until clean (minimum 2 minutes, or for instruments that are not ultrasonically clean, until clean). RINSE AND DRY INSTRUMENTS: Follow with appropriate rinsing and drying protocol. Change solution as needed when it becomes dull or visibly dirty.

Special Instructions for Cleaning and Disinfection Against HBV, HIV-1 and HIV-1 (AIDS Virus) for Surfaces or Objects Soiled with Blood or Body Fluids
Kilo HBV, HIV-1 and HIV-1 (AIDS Virus) on contaminated environmental surfaces or objects previously soiled with blood or body fluids in 30 seconds or at room temperature (20-25°C) in 30 seconds or at room temperature (20-25°C) in 30 seconds or at room temperature (20-25°C) in 30 seconds or at room temperature (20-25°C)

PROCEDURE: All blood and body fluids must be thoroughly decontaminated from surfaces and objects before application of the germicidal solution. Use a minimum contact time for disinfection of all the organisms of concern. Disposal of Infectious Materials: Dispose of used solutions in accordance with local regulations for infectious waste disposal.

STORAGE AND DISPOSAL
Do not contaminate waste, food or feed by storing or disposing.

STORAGE: Store in original container in a cool, well-ventilated, locked and inaccessible to children and persons unfamiliar with its use. Puncture-Resistant Waste: Residing from the use of this product must be disposed of on site, as part of approved waste disposal facility. CONTAINS REFRIGERATE Container, fill this container with only quaternary ammonium product. Do not use a container for objects of any other purpose. Cleaning before refilling is the responsibility of the retailer. To clean the container before final disposal, empty the remaining contents from the container into application equipment or a waste bin. Fill the container with 10 liters full water. After vigorously or recirculate water with the pump for 2 minutes. Pour or trim niece into application equipment or rinse collection system. Repeat the cleaning procedure 2 or more times.

PRECAUTIONARY STATEMENTS
Handle to Human and Domestic Animals
CAUTION: Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water before leaving, eating, drinking, chewing gum or smoking tobacco. Remove contaminated clothing and wash clothing before reusing.

FIRST AID

1. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Convulsions: tightly/convulsions, if possible.

2. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes.

3. IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

You may also contact 1-800-424-9360 for emergency medical treatment information.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.
