PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes irreversible eye damage. Causes skin burns. Harmful if inhaled. May be fatal if swallowed. Harmful if inhaled, on skin, or by ingestion. Avoid breathing vapor. Do not swallow. Wear protective clothing and gloves. Do not use or store in wet area.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge containing this product into lakes, streams, ponds, aquacultural waters, or other waters in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified or is notifying the local sewage treatment plant authority. For guidance consult your State Water Board or Regional Office of the EPA.

STORAGE AND HANDLING
BPC 68970 is incompatible with many commonly used materials of construction such as steel, galvanized iron, aluminum, tin, and zinc. BPC 68970 can be stored and handled in glass, phenolic/resin, steel, polyethylene, stainless steel, or nonporous epoxy equipment. This product freezes at about 1°F (-17°C). Therefore, unless the storage tank is inside or underground and insulation may be required. If heating is needed, exposure to high temperatures should be avoided. For short storage times (up to about 1 month), temperatures of up to 100°F (37.8°C) can be tolerated, but the preferred maximum storage temperature is about 60°F (20°C). A stainless steel centrifugal pump is suggested for transfer service. Spriral-wound stainless steel with TEFCON® liner is available for gaskets and packing.

Handle in well-ventilated areas. If inhaling to the nose or eyes, special ventilation or respiratory protection (N95/HEPA approved air purifying respirator equipped with an organic vapor cartridge) may be required.

STORAGE AND DISPOSAL
PESTICIDE DISPOSAL. Do not contaminate water, food, or soil by disposing of waste or by placing waste in trash water washes and holding tanks.

BPC 68970

This highly effective Microbiocide for use in controlling bacteria including slime forming bacteria, sulfate-reducing bacteria, fungi (yeast and mold) and algae in air washers and industrial scrubbing systems, recirculating cooling and cooling water processes, including those that contain reverse osmosis membranes and associated system elements, heat transfer systems, wastewater systems including wastewater washers and holding tanks.

FIRST AID

SHALLOWED
• Call a poison control center or a doctor immediately for treatment advice.
• Do not give anything by mouth.
• Do not induce vomiting.

IF IN EYES
• Wash immediately and continuously with running water for at least 20 minutes. Remove contact lenses after the first 5 minutes and continue washing. Obtain medical advice for any irritation to these body parts.

IF ON SKIN OR CLOTHING
• Wash skin immediately with plenty of water for 15-25 minutes. Call a poison control center or a doctor immediately for treatment advice.

IF INHALED
• Move patient to fresh air. If patient is not breathing, call 911 or an ambulance, and give artificial respiration, if needed.
