Kills Warfarin Resistant Norway Rats and House Mice

ACTIVE INGREDIENT:
Brodifacoum (CAS #56073-10-0): ................. 0.005%
OTHER INGREDIENTS: ....................... 99.995%
*Contains Denatonium Benzoate
TOTAL 100.000%

*Not permitted for use against the following species in California:
Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat,
Meadow vole, White-throated woodrat, Southern plains woodrat,
and Mexican woodrat

NET WT:
1 lb (0.45 kg)

INDIVIDUAL SALE IS PROHIBITED BY LAW

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back panels for First Aid and additional precautionary statements.
KILLS RATS, MICE, AND MEADOW VOLES

Kills Warfarin Resistant Norway Rats and House Mice
Moisture Resistant • Mold Resistant
Norway rats, roof rats, and house mice may consume a lethal dose in one night’s feeding with first dead rodents appearing four or five days after feeding begins.

ACTIVE INGREDIENT:
Brodifacoum (CAS # 96078-10-0): 0.005%
OTHER INGREDIENTS: 99.995%
1Contains Determinant Benzene TOTAL 100.000%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See side panels for First Aid and additional precautionary statements.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. The pesticide is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas before the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water environments with this product.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Container Handling: Nonrefillable container. Do not reuse or refill this container. Disposal of wastes resulting from the use of this product must be done in an approved waste disposal facility. Pesticide Disposal: Dispose of wastes resulting from the use of the product in trash or at an approved waste disposal facility. If animal eats bait, call veterinarian or 1-877-854-2494 at once.

TREATMENT FOR PET POISONING
If a pet eats any of the bait:
• Have the veterinarian call 1-877-854-2494 immediately for treatment advice.
• Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.
Have a person sip a glass of water if able to swallow. Rinse mouth if there is no gag reflex. Do not give anything by mouth if the pet is unconscious. Determine the amount ingested and call 1-877-854-2494 immediately for treatment advice.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling contrary to label instructions.

DIRECTIONS FOR USE (Continued from other panel)

Permanency of the treated area is increased when it is kept free of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and treat as necessary.

APPLICATION DIRECTIONS:
RATS: Place 5 to 22 blocks (at intervals of 15 to 30 feet) per placement in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.

MICE AND MEADOW VOLES*: Place 1 block per placement. Space placements at 8- to 12-foot intervals in infested areas. Two blocks may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and changing into clean clothing.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.
NOTE TO PHYSICIAN
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally. Vitamin K1 is antitoxin at doses of 10–20 mg (not mg/kg). Repeat as necessary based on monitoring of prothrombin times.

NOTES:
- All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.
- Do not contaminate water, food or feed by storage or disposal.
- Keep out of reach of children and pets.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing.
- User Safety Requirements
  - Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, coughing, using tobacco or using the toilet and change into clean clothing.

STORAGE AND DISPOSAL
- Do not contaminate water, food or feed with or by storage or disposal.
- Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.
- Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility.
- Container Handling: Nonrefillable container. Do not reuse or refill this container.
- Plastic: Offer for recycling or reuse and/or handling of this material when such use and/or handling is contrary to label instructions.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

NET WEIGHT: 16 lbs (7.2 kg)

DIRECTIONS FOR USE
- Protect bait from rain and snow. Remove as much alternative food as possible.
- Application Directions:
  - RATS: Place 5 to 22 blocks (at intervals of 15 to 30 feet) per placement in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.
  - For use in sewers, thread wire through block and securely attach to a stationary structure such as the bottom step of a manhole ladder or a sewer grate. Allow just enough wire for the block to rest on manhole bedding. If bedding is not present, suspend block a few inches above the high water mark or secure block on a board supported by opposing steps of the ladder. Securing block in this manner will prevent removal by rats or water. Use at least 15 blocks per manhole. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.
  - MICE AND MEADOW VOLES*: Place 1 block per placement. Space placements at 6- to 12-foot intervals in infested areas. Two blocks may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow vole* activity cease.

PRECAUTIONARY STATEMENTS
- Hazards to Humans and Domestic Animals
- CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing.
- All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

RATS:
- Implement the baiting procedure immediately in areas where rats are infesting structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Ochrotomys nuttalli), Polynesian rat (Rattus exulans), Mexican woodrat (Neotoma xaxax), Southern plains woodrat (Neotoma micropus), and White-throated woodrat (Neotoma albigula).

MICE AND MEADOW VOLES*:
- Place 1 block per placement. Space placements at 6- to 12-foot intervals in infested areas. Two blocks may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow vole* activity cease.

NOTE TO VETERINARIAN
If animal eats bait, call veterinarian or 1-877-854-2494 at once.

NOTE OF RELEVANCE
If animal eats bait, call veterinarian or 1-877-854-2494 at once.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent exposure:
- Store unused product out of reach of children and pets.
- Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hooted livestock, raptors, bears, or other potentially destructive animals, or in areas prone to vandalization.
- Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing.
- All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

STORAGE AND DISPOSAL
- Do not contaminate water, food or feed with or by storage or disposal.
- Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.
- Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility.
- Container Handling: Nonrefillable container. Do not reuse or refill this container.
- Plastic: Offer for recycling or reuse and/or handling of this material when such use and/or handling is contrary to label instructions.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
