DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Burnished Germicidal Solution is a general purpose cleaner, deodorizer and disinfectant to be used where control of cross-contamination hazards is of prime importance. Burnished Germicidal Solution provides a novel way to effectively clean and disinfect hard, non-porous environmental surfaces. Burnished Germicidal Solution aids in the reduction of cross-contamination hazards. Easy to use, no mixing or diluting except for ultrasonic cleaning Ready-to-use.

Active Ingredients:
- n-Alkyl (60% C14, 30% C15, 5% C12, 5% C10) dimethyl benzylic ammonium chloride .......................... 0.154%
- n-Alkyl (68% C16, 32% C18) dimethyl ethylbenzylic ammonium chloride ............................................. 0.154%

Other Ingredients: 99.622%

Total: 100.00%

Keep Out of Reach of Children

CAUTION

See side panel for additional precautionary statements.

Net Contents: 1 Quart (0.95 Liters)

Cat No. S5NO

DIRECTIONS FOR USE (Continued)

This product has demonstrated effectiveness against influenza strains A2/HK strain and Asian influenza A viruses including Pandemic 2009 H1N1 (formerly called "swine flu").

General Cleaning, Disinfecting and Deodorizing:
Prior to disinfection, prepare all surfaces with Burnished Germicidal Solution, making sure to remove all gross dirt and heavy soil. Apply solution to surface and allow surface to remain wet for 30 minutes prior to wiping with a paper towel or cloth (non-abrasive). Ultrasonic Cleaning: Thoroughly pre-rinse instruments under running water to remove visible gross debris. Using 1 ounce of Burnished Germicidal Solution per liter of water in ultrasonic tank, immerse instruments into solution and agitate vigorously for 5 minutes (or longer if necessary). Remove and air dry instruments. Follow with appropriate cleaning and disinfection process. Change solution as needed when it becomes cloudy or visibly soiled. To Disinfect Hard, Nonporous Surfaces/Environments:
- To Disinfect Animals/Inanimate: Aspergillus niger, Aspergillus Fungi, Candida albicans, Canine Parvovirus, Escherichia coli 0111:O4, Enterovirus 71, Herpes Simplex Virus Type 2, H1N1 Flu (A/2009), Influenza A and B (H3N2, H1N1), Influenza A and B (H5N1, H7N9), Influenza A and B (H7N9) Influenza A Virus, Influenza A Virus Influenza B Virus (B/CDC), Influenza C Virus (B/CDC), Influenza D Virus, Influenza H1N1 Pandemic 2009 H1N1 Influenza A Virus, Pox Virus 2, Ruminant parovirus, Rhinovirus Type 1A, Staphylococcus aureus, Streptococcus pneumoniae, Staphylococcus aureus, Methicillin-resistant Staphylococcus aureus (MRSA), Trichophyton mentagrophytes and Vaginalitis microorganisms (VFM): Using Burnished Germicidal Solution as (do not dilute) application solution to thoroughly wet the preferred surface. Allow to remain wet for 5 minutes prior to wiping or allow surface to air dry. For disinfection of Aspergillus niger, use this product only for surfaces that are not conducive to treatment by immersion or exposure. Notes: Distributed finisher contact surface must be treated with possible water after drying and/or dilution and before reuse. After disinfection, critical and semi-critical devices must undergo appropriate sterilization/final high-level disinfection. Special instructions for cleaning and disinfection against Hepatitis A and B:

This product is not to be used as a sorbent contained/disinfectant on any surface or instrument that (i) is introduced directly into the human body; (ii) is in contact with the bloodstream or normally sterile areas of the body; or (ii) contains human tissues; but which does not ordinarily penetrate the blood barrier or otherwise enter non-sterile area of the body. This product may be used to problem or determine critical or semi-critical medical device prior to sterilization or high level disinfection.

STORAGE AND DISPOSAL:
Do not contain water, food or feed by storage or disposal.

Storage: Store in original container in a cool, well-ventilated, locked area inaccessible to children and persons unfamiliar with its use. Portable Disposal: Wastes resulting from the use of this product must be disposed of on site, or as an approved waste disposal facility. Container Disposal: Non-refillable container do not reuse or refill container. Properly contain after emptying. Triple rinse for the equivalent of the plastic container after emptying. Triple rinse as follows: Empty and rinse the remaining content into an empty equipment and drain for 10 seconds after the drain begins to flow. Fill the container with 1/4 full with water and make a stir. Drain for 10 seconds. Follow portable waste disposal rules and regulations. Do not pour more than once per day. OSHA requires for waste to be in containers not to exceed one gallon of volume or area of the body. This product may be used to problem or determine critical or semi-critical medical device prior to sterilization or high level disinfection.

PRECAUTIONARY STATEMENTS:

How to handle and dispose of waste. Avoid breathing vapors or contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Avoid contact with eyes or mouth. Wash with soap and water before eating, drinking, chewing gum or using tobacco. Use soap and water before eating, drinking, chewing gum or using tobacco. Place on worksheets not to exceed one gallon of volume or area of the body. This product may be used to problem or determine critical or semi-critical medical device prior to sterilization or high level disinfection.

FIRST AID

If Inhaled:
Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give mouth-to-mouth, preferably by mouth-to-nose, if possible.

If On Skin or Clothing:
Remove contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes.

If in Eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and if pain persists, if pain persists for 5 minutes, then contain drainage eye.

Call a poison control center or doctor for medical advice. Have the product container or label with you when calling a poison control center or doctor, or go for treatment.

For more information, call 1-800-555-5555 for emergency medical information.

PHYSICAL OR CHEMICAL HAZARDS:
Do not use or store near heat or open flame.
