DIBROM CONCENTRATE
INSECTICIDE

KEEP OUT OF REACH OF CHILDREN
DANGER / PELIGRO

USE ONLY AS DIRECTED

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONS, WARNINGS OR CAUTIONS.

This product is formulated only for aerial and ground application for the control of insect pests in and around homes, businesses, and other structures; on crops for use in or on raw agricultural commodities; and on nonagricultural areas.

DIRECTIONS FOR USE

Aerial Application:

1. Use with aircraft or other means of aerial application as designed for use with this product. Be aware of industry practices and standards.
2. Do not use in areas where water, crops, or other vegetation are exposed to drift from the application. 
3. Apply the product only when the air temperature is between 60ºF and 80ºF.

GROUND APPLICATION:

1. Read and follow the directions and precautions on the label to ensure proper application.
2. Do not use without the correct droplet size as recommended.

USER SAFETY RECOMMENDATIONS

1. Use personal protective equipment appropriate for the activity.
2. Do not contaminate water, food, or feed by storage, disposal, or application of the product.
3. Do not use the product on or near food or feed items.

DIRECTIONS FOR USE

1. Use with safety equipment appropriate for the activity.
2. Use only with registration.

DANGERS TO HUMAN HEALTH

1. May cause nausea, vomiting, diarrhea, dizziness, and central nervous system depression.
2. May cause liver, kidney, and stomach cancer.

DANGERS TO DOMESTIC ANIMALS

1. May cause damage to the respiratory system.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

1. Use personal protective equipment appropriate for the activity.
2. Do not contaminate water, food, or feed by storage, disposal, or application of the product.

Corrosive Liquids, Toxic, N.O.S., (NALED), UN 2922, 6

STORAGE AND DISPOSAL

1. Store in a cool, dry place.
2. Do not contaminate water, food, or feed by storage, disposal, or application of the product.

LABEL CONDITIONS:

1. The label conditions are maintained and inspected.
2. The system must be functioning and transferring it into mixing tanks and/or application equipment.

DIRECTIONS FROM THE EQUIPMENT MANUFACTURER OR VENDOR, PESTICIDE REGISTRANT, OR A TEST MANUFACTURER SHOULD BE FOLLOWED.
Contains 13.2 pounds Naled per gallon. Naled is an organophosphate cholinesterase inhibitor. Contains petroleum distillates.

**HEALTH HAZARDS**

If swallowed:
• Give 1 to 2 tablespoons of liquid paraffin or mineral oil. Do not induce vomiting. Call 911 or get medical advice immediately.

If inhaled:
• Provide fresh air. If breathing difficulty occurs, call 911 or get medical advice immediately.

If on skin:
• Wash with plenty of soap and water. Call 911 or get medical advice immediately.

**ENVIRONMENTAL HAZARDS**

DANGER. CORROSIVE.
Causes irreversible eye and skin damage. Causes skin irritation. Avoid contact with skin, eyes, clothing, and equipment.

**PPE**

Remove contact lenses, if present, after the first 5 minutes, then proceed with PPE below:
• Protective eye wear (goggles, face shield, or safety glasses)
• Rubber, Nitrile Rubber, and Viton.

**AERIAL APPLICATION:**

- Air speed and droplet size is essential to avoid unwanted effects. Under-atomization is less than 60 microns (Dv 0.5 < 60 µm) and that 90% of the spray is contained in droplets smaller than 115 microns (Dv 0.9 < 115 µm). The effects of flight speed and, to some extent, the effect of time in the air, are influenced by factors such as temperature and wind speed. Over-atomization increases the risk of paint spotting.

**ULV GROUND APPLICATION:**

- The system must be capable of removing the pesticide from the shipping container and transferring it into mixing tanks and/or application equipment.
- The manufacturer will not be responsible for damage caused by the failure of the equipment to maintain its specified capabilities.
- Use a diluent that is compatible with Dibrom Concentrate. Test compatibility of diluent and concentrate.
- Consult equipment manufacturer's recommendations concerning nozzles, nozzle positioning, air speed and droplet size as specified below. Careful attention to directions concerning nozzles, nozzle positioning, air speed and droplet size is essential to avoid paint spotting.
- Concentrate will spot certain automobile paint finishes. Careful attention to recommendations concerning nozzles, nozzle positioning, air speed and droplet size is essential to avoid paint spotting.
- For application by, or under the supervision of, personnel certified/trained in public health insecticide application for public health control of certain other nuisance insects.
- Do not apply when application is made with oils.
- Spill control equipment must be approved and readily available for immediate use.
- If application equipment is damaged, the PPE specified above for handlers engaged in those handler activities for crops or weeds while bees are visiting the treatment area, except when applications are made against mosquitoes on non-agricultural sites where bees are not present.
- In addition, mixers and loaders must:
  • Wear protective eye wear (goggles, face shield, or safety glasses)
  • Wear chemical-resistant, disposable gloves when handling this product.

**APPLICATION RESTRICTIONS**

- Application must be made in accordance with all label directions and restrictions.
- Do not apply when bees are visiting the treatment area. Under-atomization is less than 60 microns (Dv 0.5 < 60 µm) and that 90% of the spray is contained in droplets smaller than 115 microns (Dv 0.9 < 115 µm). The effects of flight speed and, to some extent, the effect of time in the air, are influenced by factors such as temperature and wind speed. Over-atomization increases the risk of paint spotting.

**BEE MANAGEMENT:**

- Do not apply until 24 hours after the last application.
- It is not necessary to avoid farm buildings, dairy barns, and feed or forage areas. Do not apply to feedlots in feed storage areas or forage areas.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.
- Do not apply until 24 hours after the last application.
- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.
- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.

**MOSQUITO CONTROL:**

- It is not necessary to avoid farm buildings, dairy barns, and feed or forage areas.
- Do not apply to feedlots in feed storage areas or forage areas.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.
- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.

**ADULT MOSQUITO CONTROL:**

- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.
- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.
- Do not apply until 24 hours after the last application.
- Do not apply to blueberries, cranberries, grapes, strawberries, or other berries.
- Do not apply to wildflower fields.

**TANK MIXES:**

- Concentrate will spot certain automobile paint finishes. Careful attention to recommendations concerning nozzles, nozzle positioning, air speed and droplet size is essential to avoid paint spotting.
- Test diluent compatibility and consult equipment manufacturer's recommendations.
- Consult equipment manufacturer's recommendations concerning nozzles, nozzle positioning, air speed and droplet size.
- Spill control equipment must be approved and readily available for immediate use.
- If application equipment is damaged, the PPE specified above for handlers engaged in those handler activities for crops or weeds while bees are visiting the treatment area, except when applications are made against mosquitoes on non-agricultural sites where bees are not present.
- In addition, mixers and loaders must:
  • Wear protective eye wear (goggles, face shield, or safety glasses)
  • Wear chemical-resistant, disposable gloves when handling this product.

**REMOVAL OF PRODUCT:**

- If product is spilled, contain using absorbent materials. Do not use water. Do not wash into drains. Place absorbent materials in a closed container, package, and dispose of in a manner consistent with state regulations.
- Do not rinse or contaminate empty container. Do not dispose of untampered empty container.
- Do not tamper with container, or add anything to the container that renders it unfit for return.
- Do not pour remaining contents down the drain or into the environment.
- Do not mix with other chemicals or fertilizers.
- Do not mix with oil.
- Do not mix with oil.
- Do not mix with oil.

**CONTAINER HANDLING:**

- Keep of:
  • DIBROM CONCENTRATE INSECTICIDE
  • DIBROM CONCENTRATE INSECTICIDE
  • DIBROM CONCENTRATE INSECTICIDE

**REMEDY AND MANUFACTURER'S OR SELLER'S EXCLUSIVE LIABILITY FOR**

- The manufacturer warrants (a) that this product conforms to the chemical description on the label, and (b) that this product will perform as represented in the labeling when used for the purpose and in the manner prescribed for its intended use and in accordance with all label directions and restrictions. Except as provided in this warranty, the manufacturer disclaims all other express or implied warranties, including without limitation, all warranties of merchantability and fitness for a particular purpose.
- The manufacturer will not be responsible for any damage or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any damages or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any damages or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any damages or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any damages or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any damages or loss to any person or property or the loss of any data, arising out of the use of this product or the failure of this product, including any cost or expense incurred in installing or removing this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
- The manufacturer shall not be liable for any exemplary, punitive, or consequential damages, including lost profits, arising out of the use of this product or the failure of this product.
- The manufacturer's liability shall be limited to the replacement cost of this product.
