ACTIVE INGREDIENTS:
- 2,4-dichlorophenoxyacetic acid (2,4-D) - 93.15%
- (triclopyr) bis (4-chloroanilino) propanoic acid - 5.6%
- Disodium EDTA (non-offending acid) - 0.00%
- Inert Ingredients - 1.05%

GUARANTEED ANALYSIS:
- Total Nitrogen (% w/w) - 15.50%
- 8.2% Ammonium Nitrogen
- 1.9% Urea Nitrogen

PRODUCT CONTENTS:
- 15 lbs. (6810 g) in 60 gal. (227 liters) per ton
- 33 lbs. (1507 g) in 60 gal. (227 liters) per ton
- 50 lbs. (2270 g) in 60 gal. (227 liters) per ton

STORAGE AND DISPOSAL:
- STORES new in original containers with tight closure. Do not store in a packing material or in equipment where contact with food or potable water may occur. Do not use to store water. Disposal: Do not discontinue the use of this product if the container is not compatible with the material it contains. Do not discontinue use on non-targeted species or areas where contact with other applicable products may occur. Apply only on an area of land used for feed. All livestock may be used for human consumption. Do not use on any food by-products. Do not use in a manner that results in the treatment of thunderstorms or snow. Do not use in a manner that results in the treatment of thunderstorms or snow. Do not use in a manner that results in the treatment of thunderstorms or snow. Do not use in a manner that results in the treatment of thunderstorms or snow.

Irrigation Intervals:
- Irrigation intervals may vary depending on the amount of rainfall, the type of soil, and the specific conditions of each field. Always refer to the label instructions for specific irrigation recommendations.

Irrigation Water Information:
- Apply the maximum irrigation rate to the soil at 150 lbs. per acre (15,000 g per hectare) or 0.25 inches (6.3 mm) per application period. The maximum number of irrigation applications per irrigation is 2 per year.

WEEDS CONTROLLED:
- Burndock
- Canada Thistle
- Common Purslane
- Creeping Red Crabgrass
- Field Mustard
- Foxtail
- Goosefoot
- Groundsel
- Horseweed
- Kochia
- Large Crabgrass
- Parthenium
- Prostrate Pigweed
- Pigweed
- Russian Thistle
- Snakehead
- Spotted Knapweed
- Stamnocephalum
- Stinking Water
- Sorman
- Sugar Beet
- Volunteer
- Wild Oats

SPREADERS AND CALIBRATION:
- Use a commercially approved spreader applicator. Do not apply this product on or near food crops or suspected food areas. Do not apply this product within 20 feet of irrigation equipment. Do not apply this product within 20 feet of irrigation equipment. Do not apply this product within 20 feet of irrigation equipment. Do not apply this product within 20 feet of irrigation equipment.

Application Rates:
- Apply 4 lbs. of Wil-Gro 50 Feed per 1,000 square feet or 15 lbs. per acre. (1 lb. of nitrogen per 1,000 square feet)

CENTRAL/REGIONAL SPREADERS:
- Frank's Industries
- Fredco
- Smith's Spreader Co.
- Mar-Bak
- Smallholder
- Terry®

DISPERSER SPREADERS:
- Fredco
- Smith's Spreader Co.
- Mar-Bak
- Smallholder
- Terry®

Application Rates:
- Always follow the manufacturer's instructions for the specific application equipment being used.

Condition of Sale and Limitation of Warranties:
- The manufacturer and seller shall be liable only for defects in materials and workmanship which are of a nature causing the product to fail in its essential purpose. The product is not warranted to produce a certain yield or to be free from losses or other failures. The manufacturer and seller shall not be liable for any loss of the stalk of plants, or other failures not otherwise stated in the label instructions. The product is not warranted to produce a certain yield or to be free from losses or other failures. The manufacturer and seller shall not be liable for any loss of the stalk of plants, or other failures not otherwise stated in the label instructions. The product is not warranted to produce a certain yield or to be free from losses or other failures.
