Surfact 50™
Nonionic Surfactant and Acidifier

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRINCIPAL FUNCTIONING AGENTS
Yucca schidigera and citric acid. 35.00%
Constituents ineffective as adjuvants. 65.00%
Total. 100.00%

Surfact 50 is an effective, natural, surface-extendable spreader and activator that gives rapid wetting and aids in the absorption and translocation of the spray.

Surface 50 is a low-foaming, nonionic surfactant that can be used with defoliants, fungicides, herbicides, insecticides, and acaricides.

Surface 50 may be used as an acidifier/pH-buffering agent to lower pH of spray solutions. Surface 50 may be used with dilute or concentrate sprays. Carefully follow the precautions, restrictions, recommended use rates, and application directions appearing on the labels of pesticides to be applied with Surface 50.

NOT FOR AQUATIC USE

DIRECTIONS FOR USE
Application by Aerial or Ground Equipment
For general use with acaricides, fungicides, and insecticides, use 8 oz to 1/8 fluid ounces per 100 gallons of spray solution. For general use with defoliants and herbicides, use 1 to 4 pints per 100 gallons of spray solution. Water pH should be checked before and after introduction of Surface 50 to ensure the desired pH level of the spray solution.

Note: When applying by air, follow all pesticide label directions including minimum water volume per acre. Do not substitute Surface 50 for water required by the pesticide label.

COMPATIBILITY
Surfact 50 is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container away from children, animals, foods, feeds and seeds. Handle in accordance with precautionary statements in the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with product disposal.

PRODUCT DISPOSAL
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL
Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler visit the ACRC web page at www.acrc.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITION OF SALE
Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions to the extent consistent with applicable law.
