**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons.

**COOLING WATER SYSTEMS:** WSKT 10 may be used to control the growth of microorganisms including bacteria and algae in recirculating cooling water systems. In recirculated systems, add WSKT 10 at a dosage rate of 11.6 to 69.6 fluid ounces per 1000 gallons of system water (100 to 600 ppm WSKT 10). Clean extremely fouled systems to remove excess algae growth, excessive biofilm, and other deposits prior to program initiation. To maintain control, add subsequent additions of 1.16 to 34.8 fluid ounces per 1000 gallons of system water (10 to 300 ppm WSKT 10).

**AIR WASHER SYSTEMS:** WSKT 10 may be used to control microbial fouling in industrial airwash systems. Clean extremely fouled systems prior to the addition of WSKT 10. When systems are noticeably fouled, add WSKT 10 at an application rate of 11.6 to 92.8 fluid ounces per 1000 gallons of system water (100 to 900 ppm WSKT 10) daily until control is evident. To maintain control, add subsequent additions of 11.6 to 56.0 fluid ounces per 1000 gallons of system water (100 to 500 ppm WSKT 10). Not registered for this use in California.

**METALWORKING FLUID SYSTEMS:** WSKT 10 may be used to prevent microbial degradation and fouling in metalworking fluid systems. Add WSKT 10 tank-side to the system at 23.2 to 232 fluid ounces per 1000 gallons of atomized fluid (200 to 2000 ppm product) as needed to maintain control. Clean systems with excessive fouling prior to initiating the program. Not registered for this use in California.

**FIRST AID**

If in Eyes
• Hold eyes open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for further treatment advice.

If on Skin
• Take off contaminated clothing.
• Rinse skin thoroughly with plenty of water for 15–20 minutes.
• Call a poison control center or doctor for further treatment advice.

If Swallowed
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water, if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If Inhaled
• Remove to fresh air. If breathing is difficult, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

You may have the product container or label with you when calling your State Water Board Control Center or doctor or going for treatment. You may also contact 907-677-2722 for emergency medical treatment information.

NOTE TO PHYSICIAN

Probable mucous damage may contaminate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety goggles. Harmful if swallowed or absorbed through skin. Avoid contact with skin. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or going to the bathroom. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact may cause dermatitis.

Personal Protective Equipment: Applicators and other handlers must wear: coveralls over long-sleeved shirt and long pants, acid and chemical resistant footwear, gloves or face shield, chemical-resistant goggles (such as waterproof or rubber glasses). Respirator with a dust/carbon or organic vapor cartridge or filter to protect against exposure to the pesticide vapor from this product. Use a respirator approved by the National Institute for Occupational Safety and Health (NIOSH) and a mask approved for exposure to organic vapor. Pesticide and pesticide vapor safety equipment and PPE are required for those assisting in the application of this product.

User Safety Requirements: User must wash hands before eating, drinking, chewing gum, using tobacco, and/or taking off clothing. User must remove clothing immediately if pesticide gets on it. Then, wash or shower on clean clothing. User must remove Personal Protective Equipment immediately after handling this product.

WASH OUT OF REACH OF CHILDREN DANGER

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. This product is corrosive to mild steel. Do not store or transport in unlined metal containers.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Agriculture, Environmental Conservation Agency, or the EPA, a State Pesticide Control Authority, a State Hepatitis Hazardous Waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: (For all nonrefillable containers)

Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse equipment.

• For containers with capacity of 5 gals or less

Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/2 full with water and recap. Shake for 10 seconds. Pour rinsewater into application equipment or a tank or mix store for the later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

• For containers with capacity of >5 gals

Empty the remaining contents into application equipment or a mix tank. Fill the container 1/2 full with water. Replace and tighten closure. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its lid and tip it back and forth several times. Empty the rinse water into application equipment or a mix tank or store rinsewater for later use for disposal. Repeat this procedure two more times.

(Great for all nonrefillable containers)

Then offer for recycling if available or reconditioning, if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE, OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

(Product for all refillable containers)

Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

For plastic containers larger than 55 gallons:

To clean the container prior to refilling or disposal, use a pressure washer as follows: Empty the remaining contents into application equipment on a flat surface. Add a small pressure washer system that inlines all the interior sides with water and that is rated at >40 psi and >120°F. Pressure wash the container with a length of time that ensures that a minimum 25% reduction in the surface area of the container volume that is exposed to the pressure washer, ensuring that the container volume is still reduced by >25% prior to emptying the container. Rinse equipment. Drain for 10 seconds after pressure wash is complete. Do not discharge the rinse water into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on the label.

**PESTICIDE STORAGE:** Do not contaminate food or feed by storage, disposal or cleaning of equipment. This product is corrosive to mild steel. Do not store or transport in unlined metal containers.
