Crystal Clear Multi-Shock®

Multi-Purpose Shock, Oxidizer, Buffer, Clarifier and Flocculent

- Easy to use, for all pool surfaces
- Restores water sparkle
- Treat and swim in as soon as 15 minutes*
*Refer to the pre-entry statement on the back panel for further guidance.
- Produces super clear water

ACTIVE INGREDIENT:
Sodium dichlor-o-triazinetrione .......................................................... 58.2%
OTHER INGREDIENTS: ................................................................. 41.8%
TOTAL INGREDIENTS: .............................................................. 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER See back panel for additional precautionary statements.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin imme-
sively with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the prod-
uct container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL
EMERGENCY, CALL 1-877-400-8553. Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

SWIMMING POOL OXIDIZER:
This specially formulated product, a blend of an oxidizer, clarifiers and water enhancing buffers, keeps your pool water sparkling clear. This product delivers superb water clarity, destroys eye irritating chloramines and unpleasing odors, improving swimmer comfort. Proper use of this product will not adversely affect the pH of the pool water. Designed for use with all types of pool surfaces, this convenient, easy-to-use product allows swimming as soon as 15 minutes after application.4

This product dissolves quickly and completely. No pre-mixing is required and no undissolved solids remain. (In water temperatures less than 70°F this product may take longer to dissolve. To prevent possible damage to pool surface, use a pool brush to disperse any granules which may have settled to the bottom of the pool.) May be used with chlorinated, brominated, ozone and ionization systems. It is formulated for use with all types of pool surfaces. DO NOT use in pools sanitized with biguanides. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate Omni product specifically formulated for these purposes.

Do not mix this product directly with any other shock products or pool chemicals as violent reactions could occur. This product must be applied from the bottle directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

With the pump in operation, apply the entire dosage at one time. Broadcast evenly around edges with special attention to areas of the pool where water circulation is the poorest. Apply directly to pool water only. Do not add through a skimmer or any automatic dispensing device. For best results, test and adjust pool water pH to 7.2-7.6 prior to application. Apply product when pool is not in use. Swimming may resume in as soon as 15 minutes after product application. *Test chlorine residual. Swimming may resume when chlorine residual is 1-4 ppm.

ROUTINE MAINTENANCE: To help maintain a sparkling clear pool, add one pound of product to 12,000 gallons of water each week.

ADDITIONAL APPLICATIONS: Additional applications are recommended after periods of heavy pool usage, significant rainfall or the appearance of cloudy water. Follow routine maintenance instructions.

OFF SEASON MAINTENANCE: Pools which are kept circulating during the winter season require less frequent additions. Apply product approximately once each month at the rate of one pound of product to 12,000 gallons.

*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOL IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive: Causes irreversible eye damage. Do not breathe dust; may be harmful if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Causes skin irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling product. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container in open air or well-ventilated area. Flood container and area with large volumes of water. In case of spills, wipe up and place product in pool water, then flood spilled area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
