CAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get on eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves, and protective clothing. Harmful if swallowed or absorbed through skin. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Auto-Chlor Soft/San is a concentrated formulation designed for use in commercial and institutional laundry operations by addition to the final rinse cycle.
The residual self-sanitizing activity reduces the number of odor causing bacteria from wet contamination.
Residual self-sanitizing level of bacterial control
Add 5 fluid ounces of Auto-Chlor Soft/San per 100 lbs. of dry laundry to the final rinse cycle water.
At this rate, this product provides, to the fabric, a residual self-sanitizing activity against odor causing Gram positive and Gram negative organisms under conditions of high relative humidity or wet contamination.
Residual bacteriostatic level of bacterial control
Add 20 fluid ounces of Auto-Chlor Soft/San per 100 lbs. of dry laundry to the final rinse cycle water.
At this rate, this product provides, to the fabric, a residual bacteriostatic activity against odor causing Gram positive and Gram negative organisms under conditions of high relative humidity or wet contamination.
The product inhibits the growth of organisms which act on urine to produce ammonia in diapers and wet bed linens. It also softens clothes, thereby eliminating chafing and "static cling" from nylon and other synthetic fabrics. The use of this product will also help to improve ironing time.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
PESTICIDE STORAGE - Store in a dry place no lower in temperature that 50°F or higher than 120°F.
CONTAINER DISPOSAL - Do not reuse empty container. Triple rinse empty container with water. Return metal drums then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated, or if allowed by local authorities, by burning. If burned, stay out of smoke.
PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal Law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
