**Eight**

**INSECT CONTROL**

**Garden & Home**

*Ready to Use*

- **KILLS OVER 100 NAMED INSECT PESTS**

**KEEP OUT OF REACH OF CHILDREN CAUTION**

*Active Ingredients*:
- Permethrin (CAS No. 5845-53-0) 0.02%
- Other Ingredients 0.98%
- Total 1.00%

*EPA Est. No. 4-NY-1 EPA Reg. No. 4-406*

*Net Contents 32 FL. OZ. (1 Qt.) (946 ML.)*

*FOR RESIDENTIAL USE ONLY*
EIGHT® INSECT CONTROL GARDEN & HOME

Ready To Use

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for use on plants being grown for food or for other commercial use, or for commercial seed production or for research purposes.

SHAKE WELL BEFORE USING - For use, turn nozzle to spray position, point away from face and squeeze trigger to spray.

INDOOR APPLICATION

For soil treatment only. Do not use as a space spray. Do not apply to or into electrical switch boxes, wiring or outlets. Do not allow children or pets on treated surfaces until spray has completely dried and area is ventilated. Do not use in commercial food handling establishments, restaurants or other areas where food is commercially prepared or processed. For the home all floor crossing surfaces and bedding should be covered during treatment or thoroughly walked before use. Exposure test should be covered or removed.

USE AS A SURFACE RESIDUAL SPRAY FOR CONTROL: DO NOT APPLY: AS LADYBUGS, CARPETBEETLE ANTS, CICADAS, CICADA LICE, CLOVER NECTAR, CORKBARK HEART, CRAB/SPIDER, CRESTED FLEET, CRESCENT, GUMMO, MUSSELS, NAPOLEON BUG, PALMSS, PEA INSECT, RED FLEET, RED FLEET, SCODIN, SHRIBAFLY, SPIDERS, SPIDERS, SPIDERS, WATERFALLS, CRUSBEETLE, MEAL WORMS, WORMS, WORMS, and WORMS. Direct the spray into holes, cracks, and crevices, and behind shelves and drawers. For Silverfish, spray bookcases. For Ants, spray trails, nests and points of entry. To reduce annoyance from Spiders, Hopper, Grasshopper, and Flying Moths, apply every 2 weeks to the outside surfaces of screens, doors, window frames, and outdoor light fixtures.

TO CONTROL CARPET MOLTS: Spray edges of carpeting and under carpeting and rugs. Make localized applications to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Repeat treatment as needed. Do not allow children or pets in treated areas until spray has dried.

TO CONTROL WORMS: Spray outside of foundations, particularly around sanitary vents and drains. Spray both inside and outside of gutters with the same product as used in the greenhouse. Repeat treatment as needed. Do not use sprayed areas until completely dry.

TO CONTROL PESTS (ADULTS AND LARVAE) AND TICKS (ADULTS AND LARVAE): Thoroughly spray infested areas, pet beds, nesting places, cracks under and around faucets, and areas below and behind baseboards, windows, and doors. Treat all areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Repeat treatment as needed. Do not allow children or pets access to treated surfaces until completely dry.

TO CONTROL CLOTHES FLYING: Remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to entry spots, corners, clothes, and other storage directing the spray into cracks, joints, and crevices. After airing, infested articles may be treated lightly, keeping nozzle at least three feet from fabric to avoid staining.

OUTDOOR APPLICATION

DIRECTIONS FOR APPLICATION TO ROSES & FLOWERS

TO KILL LICE AND LOUSE EGGS: Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after spraying, then proceed to spray entire area to be treated. Spray from a distance of 6 to 10 inches. Treat only those areas and parts of the building, including foundation and furniture that cannot be either laundered or dry cleaned. Allow all treated articles to dry thoroughly before use.

HOUSEPLANTS: To kill insects on indoor landscaping direct the spray at the spray root to kill as many insects as possible. Indoor To Protect Plants in Residential Greenhouses and House, and for Indoor Landscaping.

To Use: Contact and residual. Use sufficient spray to obtain full coverage of all foliage. If application is to be made indoors, remove infested plants from living areas prior to application. Apply in an area not likely to be occupied by people or pets particularly after spraying, plants can be returned to original location. Do not use more product than recommend, as this may cause some plant injury. Use with care on fruits, eggs and flowers. As with all plants listed above, especially carnations, chrysanthemums, and roses, there exists a wide variety of species and cultivars, and, therefore, a wide variation of susceptibility to injury. To ascertain possible phytotoxicity, spray a few plants as described above, wait 24 hours, and check for possible injury. Additional applications may be necessary to control citrus blackfly on non-bearing citrus, and Japanese beetles on roses.

MORNING PESTS IN OUTDOOR AREAS

Use Bt against insects in outdoor areas. To help control tics in outdoor activity areas, treat a band of vegetation and leaf litter 6-10 feet wide and adjacent to activity areas, especially where dense vegetation occurs. When spraying plants, do not operate closer than 10 feet. Use sweeping motions. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Contact insects directly whenever possible. Repeat treatment as infestations occur.

OUTSIDE SURFACES OF BUILDINGS

Use Bt on insecticidal soap. Control Garden & Home Ready to use for control of Arana, Asian Ladybugs, Clover insects, Cocks, Earwigs, Millipedes, Spiders (spiders) to help prevent infestations of buildings, treat the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Also, apply as a residual spray to outside surfaces of buildings, including porches, screens, window frames, doors, patios, porches, floors and walls. Repeat application of these pests congregate or have been seen. Repeat treatment as needed to maintain effectiveness.

OTHER OUTDOOR AREAS

Use for control of Ants, Crickets, Earwigs, Fleas, Lawn star ticks. For treatment of localized infestations of these insects in areas where there are weeds or bushy non-crop areas. Some infested areas thoroughly. Far ants, through wet soil and vegetation. Repeat application as infestations occur. Fire Ant Control: Individual Mound and Plant Costumer Treatment. Gently apply over the surface of each mound. Thoroughly wet mixed and surrounding area of 3 x 4 ft (12 sq. ft.) For best results apply in cool weather 60°F-80°F, early or late in the day. Final new mounds as they appear. Prevented sprays may disturb ants and cause migration, which will reduce product effectiveness. Use the same method as above for the control of Fire Ants that may exist in permanently planted containerized amenity plants. For use only as an aid in reducing annoyance from these insects on the following: Cluster flies, Frying moths, Gnats, House flies, Mothballs. Spray outside surfaces of screened doors, windows frames or wherever these insects may enter the area. Also treat surfaces around light fixtures or porches, in garages and other places where these insects alight or congregate. Repeat as necessary.

STORAGE AND DISPOSAL

Observe storage and transport in an upright position. Do not contaminate water, food or feed by storage or disposal. Store in cool, dry area away from food or pet feed. If spilled, if spread over multi-organic material. If spilled, notify local solid waste agency or 1-800-CLEANUP for disposal instructions. Never pour unused product down any indoor or outdoor drains.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION - Wash hands after handling and before smoking or eating. Avoid contamination of feed and foodstuffs. Remove pets and birds from area. Do not use on humans. Do not allow children to come near treated area until it is safe. Avoid environmental hazards - this pesticide is extremely toxic to fish. Do not apply directly to water. Avoid contamination of ornamental fish ponds.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions. For information on pest control or for concerns, medical emergencies, or pesticide incidents, call the National Pesticide Information Center at 1-800-658-7378.
