### Eight Insect Control Garden Dust

**Active Ingredients:**
- Pyrithrene (2.5%)
- Emetiterine (2.0%)
- Spinetoram (5.0%)

**Directions for Use:**
- A solution is effective against a wide range of insects, including pests such as aphids, thrips, and whiteflies.
- The dust forms a protective barrier around plants, providing lasting control.
- Apply at an even, light dusting to exposed soil and plant foliage.

**Benefits:**
- Fast-acting and long-lasting control.
- Safe for use around children and pets.

**Storage and Disposal:**
- Store in a cool, dry place away from direct sunlight.
- Dispose of empty containers properly.

**Precautionary Statements:**
- Avoid contact with skin, eyes, and clothing.
- Do not inhale the dust directly.

**Environmental Hazards:**
- Avoid spraying in windy conditions.
- Do not contaminate water bodies or other water sources.

**Hazards to Humans and Domestic Animals:**
- Use caution around pets and children.
- Do not apply near water bodies or natural areas.

**Keep Out Of Reach Of Children:**
- Store in a safe, secure location.
- Do not use near food or water sources.

**Keep Out Of Reach Of Children:**
- Store in a safe, secure location.
- Do not use near food or water sources.
