FUNG-ONIL™
Multi-purpose Fungicide

CONTROLS: Leaf Spots, Rust, Blights, Fruit Rot, Mildews, Scab, Molds and other listed plant diseases.

USE ON: Flowers, Shrubs, Shade Trees, Fruit, Vegetables.

WARRANTY AND LIMITATION OF DAMAGES
CONDITIONS OF SALE: Bonide warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. This warranty does not extend to the use of the product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Bonide. BONIDE DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. BONIDE SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, AND BONIDE’S SOLE LIABILITY AND BONIDE’S USES EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REPAID OR THE PRICE PAID FOR THE PRODUCT. Nothing contained herein shall be construed to amend, modify or add to the terms and conditions of this product warranty. This warranty shall not apply to any product which has been misused, mishandled, or altered in any way.

Store and transport in an upright position.

Store in a cool, dry area.

PRECAUTIONARY STATEMENTS

• A HIGHLY approved respirator with an organic vapor (OV) cartridge or canister with an N, R, or P or P100 filter (F94 or F95 or larger). Refer to manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Keep children and pets off treated area until dry.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic invertebrates and wildlife. DO NOT apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Use only on vegetables and other crops listed on the label. Use drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. DO NOT contaminate water when disposing of equipment washwater or runoff.

Chlorothalonil can contaminate surface water through spray drift. DO NOT apply when weather conditions favor drift from treated areas. Under some conditions, it may also have a high potential for runoff into surface water for several days to weeks after application. Includes poorly drained or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlying extremely shallow ground water, areas with in-field canals or ditches that drain into surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas overlying tile drainage systems that drain to surface water.

Chlorothalonil degrades are known to leach through soil into ground water under certain conditions as a result of leach use. Use of this product in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS.

DIRECTIONS FOR USE
General Precautions and Restrictions
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. DO NOT allow people or pets to enter treated areas until sprays have dried or dusts have settled. DO NOT apply this product in a way that will contact other persons, or pets, either directly or through drift. Only protected handlers may be in the area during application. DO NOT apply this product through any type of irrigation system.

FIRST AID

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice.

If you have affected person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Poison Information Center at 1-800-222-1222 for emergency medical treatment information.

NOTES TO PHYSICIANS: Possible muco-cutaneous damage may contribute to the use of gastric lavage. Persons having a temporary allergic reaction should be treated with antihistamines or adrenal steroids and/or systemic antibiotics.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - WARNING - AVISO
May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Do not breathe spray mist. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Personal Protective Equipment (PPE): Mixers, loaders, applicators and all other handlers must wear:
• Long-sleeved shirt and long pants;
• Shoes plus socks;
• Protective eye wear;
• Waterproof gloves; some of the materials that are chemical-resistant to this product are barrier laminates, butyl rubber, nitrile rubber, neoprene rubber, polyethylene, polyvinyl chloride, or rubber; If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use in small vegetables or fruit gardens, on plants intended for aesthetic purposes or climatic modification and being grown in exterior plant beds, ornamental gardens or parks.

Mixing, Loading and Applying
Bonide Fung-onil Multi-purpose Fungicide is a liquid concentrate that readily mixes with water and can be used in a tank-type manually operated or power sprayer. Bonide Fung-onil Multi-purpose Fungicide is highly effective for the control of a broad spectrum of vegetable, fruit and ornamental plant diseases when it is used according to the directions on this label. Uniform coverage of the water surface is essential for good disease control. Shake well before using. Mix appropriate amount with water and use at once.

GARDEN VEGETABLE DISEASES
Apply Bonide Fung-onil Multi-purpose Fungicide at the rate indicated for each garden crop for the disease to be controlled, by mixing in one gallon of water to cover approximately 200 square feet (10 ft. x 20 ft.) of plant area. Reapply treatments at intervals specified. Use the 7 day schedule during severe disease conditions or wet weather. Do not apply closer to harvest than the indicated Preharvest Interval (PPI) for each type of crop. Do not apply more than the specified amount of Bonide Fung-onil Multi-purpose Fungicide per 200 sq. ft. of garden area per year for each crop type.

Notes: Avoid spraying plants during extremely hot and sunny weather. Do not apply to wilted plants. Do not de-treat treated areas or feed treated plant parts to livestock.
### CRP DISEASES RATE PER 200 SQ FT APPLICATION DIRECTIONS

**Tomato**
- 0 Physane (apply every 7-10 days)
- Early blight
- Late blight
- Gray leaf spot
- Septoria leaf spot
- Target spot

**RATES**
- 2.5 tsp. Per Application
- 10 tsp. Per Year

**APPLICATION DIRECTIONS**
- Begin applications when disease occurs and disease threatens. Use the highest rate and shortest interval specified when disease conditions are severe.
- Apply in the morning to avoid late afternoon foliage moisture. Always follow local pesticide use guidelines.

**ORNAMENTAL GARDEN PLANTS**

**Apply Bonide Fung-oil Multi-purpose Fungicide at the rate of 2 to 3 tsp. Per 100 sq. ft. per growing season on field-grown ornamentals.**
Fruits and other structures which may be borne on treated plants MUST NOT BE EATEN.

Bonide Fung-ona Multi-purpose Fungicide is recommended for control of fungal diseases referred to by numbers in parentheses following each type of ornamental plant. The user should test for possible phytotoxic responses, using recommended rates on each type of ornamental plant prior to widespread use. Applications made during bloom may damage flowers and/or fruits.
