ALGIGON C is made especially to control growth of algae in all types of swimming pools. Its long lasting action will control existing algae and subsequent doses will control recontamination by algae. Treated water can be used immediately; no waiting to swim.

Compatible with bromine, chlorine, salt water, ozone and minerals.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ALGIGON C comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of ALGIGON C into plastic watering can, fill with water and sprinkle around edge of pool. Apply initial treatment to freshly filled pool or at first visible signs of algae growth. Apply under sunny conditions for most effective results.
