**Net Wt. 1 oz. (28 g)**
DIRECTIONS FOR USE:

This product is intended for use in sanitizing and cleaning soft serve machines.

TO CLEAN SOFT SERVE MACHINES AND EQUIPMENT:

Pour 1 packet (1 oz.) of the product into 2 gallons of hot water, and let sit until all powder is dissolved. Pour this solution into the hopper and operate 5 minutes, and then:

TO SANITIZE SOFT SERVE MACHINES AND EQUIPMENT:

Pour after cleaning as above. This solution is a fresh solution of 100 ppm of available chlorine (1 packet [1 oz.] to 2 gallons of water). After making sanitizing solution according to the above instructions, test the solution for ppm of chlorine. Pour this solution into the hopper and operate for at least one minute, or the time specified by local ordinance, times and temperatures may vary. Minimum solution temperature: 70°F.

STORAGE AND DISPOSAL:

Store in a cool dry area away from direct sunlight and heat. In case of spill, flush the area with large quantities of water. Do not store in metal containers. Do not re-use the container. Do not use this product in or on any electrical equipment. Do not use where children or infants are likely to be present. Do not use on open flame. Do not overtreat. Do not overexpose. Do not allow in living areas. Do not re-use the container. Do not use on open flame.

MECHANICAL OPERATIONS:
Sanitizing solution must be discarded after use and not reused.
